San Juan County, New Mexico

N/2 OF SEC. 28

Gentlemen:

FEDERAL LEASE

1300' FNL AND 555' FEL

Pursuant to 104 F.I. of the State of New Mexico Oil Conservation Commission's Rules and Regulations, Koch Exploration Company hereby applies for an unorthodox location for the Dryden #1-E, a Dakota Basin Well located 1300' FNL and 555' FEL (NE/4NE/4) Section 28-T28N-R8W, San Juan County, New Mexico based upon topographic reasons.

Originally the well was staked at 1600' FNL and 1900' FEL but due to a large wash, the proposed well location was moved to the existing footage as set forth above.

This application for unorthodox location is being sent in triplicate along with a plat that shows the ownership of all leases offsetting the spacing unit for which the unorthodox location is being sought as well as all wells completed thereon. Also attached is a topographic map and waivers from all offset operators.
