RE: Unorthodox Location
Eastland State #3 Well
1650' FSL & 1980' FEL
Section 13-T9S-R26E
Chaves County, NM

E/2 OF SECTION 13 DEDICATED
FUSSELMAN FORMATION
FEDERAL LEASE

ATTENTION: Mr. Gilbert Quintana

Dear Mr. Quintana,

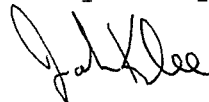

Fred Pool Operating Company is hereby requesting, under Rule 104 F, Unorthodox Locations, Page C-5 of the Rules and Regulations Handbook, administrative approval of the captioned unorthodox location.

Please find attached hereto the following documents relative to this application:

- 1) Letters of Waiver from offset operators.
- 2) Discussion of Geology from Jack Ahlen, Consulting Geologist.
- 3) Wolfcamp Structure Map.
- 4) Fusselman Structure Map.
- 5) Ownership Map of Eastland #3 area.
- 6) Application to Drill.

If we can be of any further service please do not hesitate to contact the undersigned.

Very truly yours,

John Klee
Land Manager

RE: Unorthodox Location
1980 FEL & 1650 FSL
Section 13-T9S-R26E
Chaves County, NM

ATTENTION: Rosemary Avery

Dear Rosemary,

Fred Pool Operating Company proposes the drilling of the Eastland State #3 well to be located at the captioned location.

This well is to be drilled to the Fusselman formation with a total depth of approximately 6400± feet. Under Rule 104 F, Part III of the Oil Conservation Division, offset operators of the dedicated proration unit are to be notified by certified mail of the unorthodox location request.

At this time Fred Pool, Jr., operator of the proposed drill-site, is hereby requesting your waiver of objection to said unorthodox location. To do so, please sign one copy of this letter and return to the undersigned. Envelopes are enclosed for your convenience.

If you have any questions regarding the foregoing please do not hesitate to contact the undersigned. Your time and cooperation in this matter is greatly appreciated.

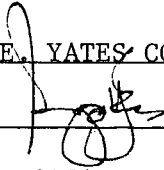

Very truly yours,

John Klee
Land Manager

The undersigned representative of HARVEY E. YATES COMPANY hereby waives objection to the foregoing request for unorthodox location.

Re: Proposed location, Eastland #3
1650'FSL & 1980'FEL
Sec 13 T9S R26E Chaves Co., NM

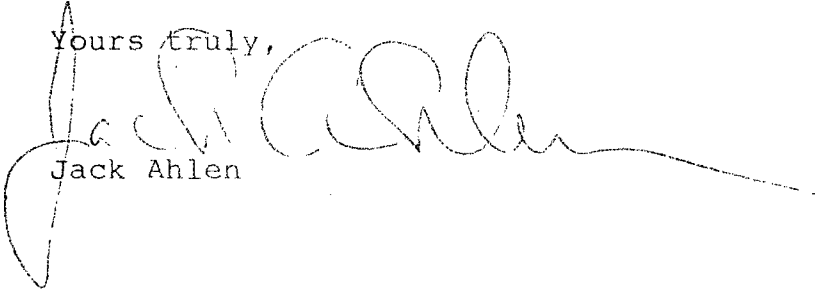

Dear Mr. Klee:

As you requested I have reviewed the geology in the vicinity of your Eastland lease. I recommend you drill a Wolfcamp test at the above location to protect your correlative rights to gas being produced by the offset operator to the south. Enclosed, please find a copy of the Wolfcamp structure map showing the proposed new location.

It is recommended that you drill an additional 750 feet deeper to test the Fusselman Formation which has never produced at a satisfactory rate in your Eastland #1 well.

If I may be of further assistance, please advise.

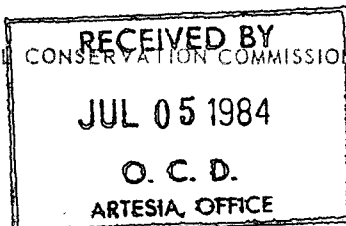

Yours truly,

Jack Ahlen
