Dear Mr. Taylor:

GREENHORN MEMBER OF THE
MANCOS FORMATION

This letter is to request administrative approval for the well location requirements Rule 104 B.I. (a) and Rule 104 C.II. (a) for such unorthodox locations. ALANA is operating in a very narrow canyon, as shown on the enclosed topo, and it is because of these topographical conditions we are requesting approval.

The two above referenced wells are in the production units outlined in red with plats, geological map, logs and topography map enclosed. Enclosed also find the plat showing all offset locations being one. ALANA is the operator on these wells and operator is SUNTEX ENERGY CORPORATION which has unorthodox locations. Please see enclosed letter
