Amoco Production Company hereby requests administrative approval for an unorthodox well location for the Gallegos Canyon Unit Well No. 240 E well in the Basin Fruitland Coal Pool. Amoco plans to recompleate this well from the Dakota formation to the Basin Fruitland Coal. This well is at an orthodox location for the Dakota, however, the Basin Fruitland Coal Pool Rules require all Fruitland wells to be in the Northeast or Southwest quarter of the section. Because of the recompleation of this well from the Dakota, it will be in an unorthodox location in the Fruitland. Attached is a copy of the C-102 for the Fruitland Coal formation.

**Amoco is the only offset operator in the Fruitland Coal formation, so no notice is necessary to Offset Operators.** Attached are plats showing the location of the well, all wells drilled in the area and the C-102 described above. Should you have questions regarding this application, do not hesitate to call me at (303) 830-5344.
