RE: Jicarilla 398 B #2 Well
Unorthodox Location Application

Gentlemen:

Please consider this letter the application of Robert L. Bayless for approval of an unorthodox well location for his Jicarilla 398 B #2 well to be located 750' FSL and 790' FWL of Section 15, Township 23 North, Range 4 West, N.M.P.M., Rio Arriba County, New Mexico. The southwest quarter (SW $\frac{1}{4}$) of Section 15 will be dedicated to the well, which will be located within the boundaries of the Ballard Pictured Cliffs gas pool.

You will note from the enclosed topographic map the position of our proposed location. Due to geologic data and the wellbore location of the Martin-Whittaker #29 it would be difficult to comply with the regulation requiring locations to be no closer than 790 feet from the nearest lease line. We have also enclosed a copy of a map showing adjoining leases and leaseholders. All offsetting leaseholders have been notified by Certified Mail and request for approval of this application has been made.

If additional data is required please advise.

Yours truly,

Robert L. Bayless

Unorthodox Location Application

Gentlemen:

Enclosed please find a copy of the above referenced application.

You have been identified as an operator of a proration or spacing unit offsetting the unit for which the unorthodox location is sought and therefore, you are provided a copy of this application with enclosures.

If you concur and have no objection, please sign and return a copy of this letter to the New Mexico Oil Conservation Commission in Santa Fe, to the attention of Joe Ramey and one copy to myself.

If additional information is required please advise.

Sincerely yours,

Robert L. Bayless
