Ulildcat Atoka 315.25 Acre dedication S/2, Section 6

RE: MWJ Producing Company Elkan 6 Com #1**K** Unit Letter L, Sec 6, T-13S, R-35E Lea County, New Mexico

Gentlemen:

Coastal Oil and Gas Corporation applied for and received an approval for a non-standard location for the referenced well to drill a Wildcat Devonian test (#R7794). The well was drilled and reached a total depth of 13,406' on April 18, 1985. The Devonian was evaluated, deemed non-productive, and Coastal proposed to plug and abandon. MWJ, as a working interest owner in the well, elected to take over operations. We set 5-1/2" casing at 11,789" to attempt a completion in the Atoka.

Shilden.

The Atoka has been completed through casing and will produce gas in commercial quantities. MWJ Producing Company therefore requests approval of the non-standard location of this well for the Atoka at 1650' FSL and 990' FWL of Section 6, Township 13S, Range 35E. Additionally, MWJ_requests an approval of the simultaneous dedications of the 315.25 acres (S/2 of Sec 6) to the referenced well and a possible well to be drilled at a standard location in the SE/4 of Sec 6.

We have enclosed plats necessary to our requests. There are no outside operators within a two mile radius.

If any additional information is needed or you have any questions, please contact our office.

Remarks: Division Order R-7794 approved Very truly yours, this consthedox location for Coastal Cil? Gas Corp MWJ PRODUCING COMPANY for a Devonian test. This administrative arder for a Devonian test. This administrative arder authouses a Willtat Aloka well at this another of the new operator of this ladder ~ well. Stan Venable

★ PETROLEUM PRODUCERS

1804 FIRST NATIONAL BANK BUILDING MIDLAND, TEXAS 79701 TELEPHONE (915) 682-5216

June 28, 1985

TO: OFFSET OPERATORS

Re: MWJ - Elkan 6 State Com #1 Sec.6, T13S-R35E Lea County, New Mexico

★

Gentlemen:

This letter serves as notice to all offset operators that MWJ PRODUCING COMPANY has requested approval from the New Mexico Oil Conservation Division of a non-standard location of 1690' from the south line and 990' from the east line of section 6 for the referenced well. Completion is in the Atoka; an earlier approval had been received from the Oil Conservation Division for a Devonian test.

Very truly yours,

MWJ PRODUCING COMPANY

Stan Venable
