Describe Cause of Problem and Remedial Action Taken.*

Power failure at Battery caused the water transfer pumps to be off. Water Tanks high leveled and over flowed. Vacuum truck picked up 20 bbl. water and 3 bbl. oil off the ground. A backhoe removed the affected soil and placed it on 20 mil plastic

Describe Area Affected and Cleanup Action Taken.*

Approx 10' X 70' area in rock and caliche pasture had produced water and oil released. It was vacuumed up and a backhoe removed the soil to 20 mil plastic. Soil samples will be submitted for testing, and will remediate affected area per O.C.D. requirements.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
