RULE-104F(I)
Pecos Slope Abo Gas Pool
160 - Abo dcd.
NW 1/4 Sec 15

Gentlemen:

Yates Petroleum Corporation requests administrative approval for the non-standard location as provided for under NMOC Rule 104F.

The reason for requesting this non-standard location is topographic. Our preferred location was 1980' FNL and 660' FWL, but this location fell in a ravine. Our next choice was 1980' FNL and 330' FWL, but this fell to close to the bluffs. Our third choice was 1980' FNL and 260' FWL.

Enclosed please find a copy of the lease map showing the offsetting operators, a topographic map of the area, a survey plat and copies of the certification slip showing where the offset operators have been notified. Offset operators have been notified of our intentions, by certified mail, via a xerox copy of this letter.

Formations we expect to drill through are: San Andres, Glorieta, Yeso and the Abo.

If you have any questions concerning this matter, please do not hesitate to call us.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION
