1220 South St. Francis Drive

Santa Fe, NM 87505

Attn: Mr. David Catanach

RE: Application to New Mexico Oil Conservation Division for Laughlin and  
W.H. Laughlin lease / pool commingling.

Dear Mr. Catanach,

This letter is in regards to Marathon's application to attain a lease / pool surface  
commingle permit for the Laughlin and W.H. Laughlin leases.

The Laughlin lease consists of one well the Laughlin No 2. The W.H. Laughlin lease  
has five active wells on the lease (No's 3 , 5, 6, 7, & 8). The ownership interest in the  
two leases is diverse. Currently, the W. H. Laughlin is operated with production from  
the Monument Tubb and Eumont Yates Seven Rivers Queen pools commingled as  
authorized under PC 979-A. The Laughlin No 2 is also producing from the Monument  
Tubb pool.

Marathon is proposing to set production equipment on the Laughlin No 2 well location  
that will meter all products; oil, gas, and water, independently. This production will then  
be recombined and sent via pipeline to the W.H. Laughlin battery. Where it will be  
recombined through the well header system, re-separated and sold along with  
production from the other five wells. Allocation of production will use the metered  
volume as basis for the Laughlin No 2 well, with the remainder of production in excess  
of those metered volumes allocated to the other five W.H. Laughlin wells based upon  
well tests.

All interest owners in the two leases have been sent a copy of this application via  
certified mail. With instructions on contacting the New Mexico Oil Conservation Division  
in writing within 21 days with any concerns they may have as this application.

If you need further information please feel free to contact me at 713-296-2096 or  
through email at [cekendrix@marathonoil.com](mailto:cekendrix@marathonoil.com).

Sincerely,

*Charles E. Kendrix*

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Marathon Oil Company  
OPERATOR ADDRESS: 5555 San Felipe  
APPLICATION TYPE:

☐ Pool Commingling ☐ Lease Commingling ☒ Pool and Lease Commingling ☐ Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE: ☒ Fee ☐ State ☐ Federal

Is this an Amendment to existing Order? ☐ Yes ☒ No If "Yes", please include the appropriate Order No. \_\_\_\_\_  
Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling  
☐ Yes ☒ No

(A) POOL COMMINGLING

Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production	Calculated Value of Commingled Production	Volumes
Monument Tubbs (47090)	38.4 / 1.086	38.1	0.1	10 bbs
			11.3 x 61 = \$689	76 mcf
Eumont Yates SR Queen (76480)	36.2 / 1.324	1.1146	Gas	1.3 bbs
			Gas	26 mcf
			102 x 8.90 = \$970	

- (2) Are any wells producing at top allowables? ☐ Yes ☒ No  
(3) Has all interest owners been notified by certified mail of the proposed commingling? ☒ Yes ☐ No.  
(4) Measurement type: ☒ Metering ☐ Other (Specify)  
(5) Will commingling decrease the value of production? ☐ Yes ☒ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING

Please attach sheets with the following information

- (1) Pool Name and Code.  
(2) Is all production from same source of supply? ☐ Yes ☐ No  
(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No  
(4) Measurement type: ☐ Metering ☐ Other (Specify)

(C) POOL and LEASE COMMINGLING

Please attach sheets with the following information

- (1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT

Please attached sheets with the following information

- (1) Is all production from same source of supply? ☐ Yes ☐ No  
(2) Include proof of notice to all interest owners.

(E) ADDITIONAL INFORMATION (for all application types)

Please attach sheets with the following information

- (1) A schematic diagram of facility, including legal location.  
(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.  
(3) Lease Names, Lease and Well Numbers, and API Numbers.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

RE: Application to New Mexico Oil Conservation Division for Laughlin and  
W.H. Laughlin lease / pool commingling.

Dear Ms. Bowden,

You are receiving this letter because you own an interest in both of the leases listed above. This letter is to inform you of Marathon Oil Company's application to commingle production from the W.H. Laughlin wells No's 3 through 8 with production from the Laughlin well No 2.

If this application is approved by the New Mexico Oil Conservation Division, Marathon will be setting production equipment on the Laughlin No 2 location that will measure the production from that well before it is commingled via pipeline with the production from the W.H. Laughlin lease. The metered volumes of the No 2 will provide the monthly basis for allocation of production to that well. All production volumes exceeding the monthly metered volume reading will be deemed to have been produced at the W.H. Laughlin lease and thus allocated to wells 3 through 8 based on well tests. A complete copy of Marathon Oil Company's filing with the NMOCD is attached with this letter.

If you desire to comment on these proceedings you have 21 days in which to contact the NMOCD in writing at the following address:

Laughlin lease. The metered volumes of the No 2 will provide the monthly basis for allocation of production to that well. All production volumes exceeding the monthly metered volume reading will be deemed to have been produced at the W.H. Laughlin lease and thus allocated to wells 3 through 8 based on well tests. A complete copy of Marathon Oil Company's filing with the NMOCD is attached with this letter.

If you desire to comment on these proceedings you have 21 days in which to contact the NMOCD in writing at the following address:

New Mexico Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505  
Attn: David Catanach

If you need further information please feel free to contact me at 713-296-2096 or through email at [cekendrix@marathonoil.com](mailto:cekendrix@marathonoil.com).

Sincerely,

*Charles E. Kendrix*

RE: Application to New Mexico Oil Conservation Division for Laughlin and  
W.H. Laughlin lease / pool commingling.

Dear Mr. Barrett,

You are receiving this letter because you own an interest in the Laughlin lease listed above. This letter is to inform you of Marathon Oil Company's application to commingle production from the W.H. Laughlin wells No's 3 through 8 with production from the Laughlin well No 2.

If this application is approved by the New Mexico Oil Conservation Division, Marathon will be setting production equipment on the Laughlin No 2 location that will measure the production from that well before it is commingled via pipeline with the production from the W.H. Laughlin lease. The metered volumes of the No 2 will provide the monthly basis for allocation of production to that well. All production volumes exceeding the monthly metered volume reading will be deemed to have been produced at the W.H. Laughlin lease and thus allocated to wells 3 through 8 based on well tests. A complete copy of Marathon Oil Company's filing with the NMOCD is attached with this letter.

If you desire to comment on these proceedings you have 21 days in which to contact the NMOCD in writing at the following address:

New Mexico Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505  
Attn: David Catanach

If you need further information please feel free to contact me at 713-296-2096 or through email at [cekendrix@marathonoil.com](mailto:cekendrix@marathonoil.com).

Sincerely,

A handwritten signature in cursive script that reads 'Charles E. Kendrix'.
