Attention: James S. Hazen,
Field Superintendent

Administrative Order NSL-2580

Dear Mr. Hazen:

Reference is made to your application of August 29, 1988 for a non-standard gas well location for your Carracas Unit 22-A Well No. 13 to be located 620 feet from the South line and 540 feet from the West line (Unit M) of Section 22, Township 32 North, Range 5 West, NMPM, Undesignated Cottonwood Fruitland Pool, Rio Arriba County, New Mexico. The SW/4 of said Section 22 shall be dedicated to the well forming a standard 160-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of General Rule 104 F(1), the above-described unorthodox gas well location is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. Lefay", with a long, sweeping underline that extends down towards the distribution list.

Sec. 22, Township 32 North, Range 5 West, NMPM
Rio Arriba County, New Mexico

Gentlemen:

Nassau Resources, Inc., hereby requests administrative approval of an unorthodox location for the captioned well based upon topographic conditions and Carson National Forest requirements.

Due to the extremely rough terrain, this proposed location is the only suitable location on this lease which meets Carson National Forest guidelines for development for wildlife habitat protection and off-road vehicle restriction.

This well is in Nassau's Carracas Unit. All offsetting operators, as shown on the attached lease plat, are being notified by copy of this Application by certified mail.

Also attached are production and topographic maps of the area and the C-102 Plat.

Please contact us if anything further is required to complete this application.

Respectfully submitted,

James S. Hazen
Field Supt.

Dear James:

It was brought to my attention by Mike Atchison that you will be needing to apply for some unorthodox locations for some of the wells in the Carracas Unit. The current location in need of unorthodox approval is the well location just northwest of the Carracas Administrative site, Section 18, T. 32 N., R. 4 W. The need for moving the location to the new site is based upon wildlife habitat protection and in keeping within the guidelines set forth in the Carson Forest Plan. The Plan, as you know, has a major emphasis in wildlife and wildlife habitat. Also key to this request for moving the location is the current Off-Road-Vehicle restriction policy in place over the entire Carracas Unit. This restriction is in place to limit off-road-vehicle travel within a key wildlife management area so that security area will not be lost by unnecessary road construction.

Whenever possible, locations will be required to be placed along open access roads. Further unorthodox locations can be expected within the Carracas Unit to keep in line with the management direction set forth for this area.

Because of this management direction and the probability of future relocations, I would hope the approval of these unorthodox locations can become routine. If not, please don't hesitate to contact me for further help or if needed to appear in person before the approving officer. If you have any questions, please give me a call.

Sincerely,

Philip R. Settles
