Attention: Mr. David Catanach

Gentlemen:

An Exception to Rule 104 C.I. by administrative approval is requested for Texaco Producing Inc.'s Vacuum Grayburg San Andres Unit Well Nos. 157 and 158. The wells are located as follows:

Well No. 157: 710' FNL, 2530' FWL, Sec. 1, T-18-S, R-34-E

Well No. 158: 660' FNL, 1330' FEL, Sec. 1, T-18-S, R-34-E

The wells must be drilled in these locations to ensure proper development of 20-acre spacing. Wells drilled previously on 20-acre spacing on our adjacent Central Vacuum Unit have proven to be viable wells. These wells will be completed in the Grayburg San Andres formation.

It should be noted that the only affected offset operator to Well Nos. 157 and 158 is Texaco Producing Inc.

Attached are Forms C-102 for each well and a lease plat showing the existing wells, locations of the subject wells, and the affected offset operators.
