Administrative Order NSL-2739

Dear Ms. Carruth:

Reference is made to your application of December 6, 1989 for a non-standard oil well location to permit the completion of an efficient production/injection pattern within an active secondary recovery project for your Langlie Mattix Queen Unit Well No. 44 to be located 1300 feet from the North line and 175 feet from the West line (Unit D) of Section 14, Township 25 South, Range 37 East, NMPM, Langlie Mattix Seven Rivers Queen Pool, (Mobil) Langlie Mattix Unit Waterflood Project Area, Lea County, New Mexico. The NW/4 NW/4 of said Section 14 shall be dedicated to the well forming a standard 40-acre oil spacing and proration unit for said pool.

By the authority granted me under the provisions of General Rule 104 F(I) and Division Order No. R-3823, dated September 4, 1969, the above-described unorthodox oil well location is hereby approved.

Sincerely,

William J. LeMay
