Re: Application for Non-Standard
Proration Unit
E/2 NW/4 Sec. 16, T20S, R37E
Lea County, New Mexico

Gentlemen:

Please be advised that Doyle Hartman recently purchased the interest of Marathon Oil Company on November 28, 1989, effective June 1, 1989, corresponding to the Hansen State lease located in the NE/4 Section 16, T-20-S, R-37-E, Lea County, New Mexico, limited to depths from the surface to the base of the Eumont Gas Pool.

Doyle Hartman hereby approves the application of John Hendrix for a non-standard proration unit consisting of E/2 NW/4 Section 16, T-20-S, R-37-E, Lea County, New Mexico (Well location to be at an unorthodox location of 650' FWL & 2310' FNL Sec. 16.), subject only to Hendrix not opposing a possible future application by Doyle Hartman for an unorthodox location and non-standard proration unit corresponding to our offsetting 160-acre Hansen State Eumont lease.

If you have any questions, please advise.

Very truly yours,

DOYLE HARTMAN

RE: Application for an 80 Acre Non-
Standard Gas Proration Unit and
Non-Standard Location
Wood "A" State No. 3
Unit F - E/2 NW/4 of Sec. 16,
T20S -R37E, Lea County, NM
Eumont Gas Pool

Gentlemen:

John H. Hendrix Corporation respectfully requests administrative approval for a non-standard 80 acre gas proration unit consisting of the E/2 of NW/4 Section 16, T20S, R37E, Lea County, New Mexico, for a Eumont gas well, the Wood "A" State No. 3 in Unit F. A lease plat is attached showing the location of this well.

The Wood "A" State No. 3 is a replacement well for the Wood "A" State No. 2, which was a Eumont gas well with the same non-standard proration unit. (This well bore (Wood "A" State No. 2) has been sold to Amerada Hess.

John H. Hendrix Corporation also requests administrative approval for a non-standard location for the No. 3 Wood "A" State. The Wood "A" State No. 2 well already exists at the location of 1980' FNL and 1650' FWL.

Approval of this request will protect correlative rights, promote conservation; and encourage the efficient recovery of gas reserves. The proposed proration unit will consist of contiguous lots and lie wholly within a single governmental section. The length or width of the proration unit will not exceed 5280 feet. The well will not be located inside 330' from any lease or quarter-quarter section line.

NMOCD

-2-

December 1, 1989

By copy of this letter, we are notifying the offset operators of this proposed non-standard proration unit and location. If these operators have no objections we ask that they execute the attached waiver and return one copy to the NMOCD, and another to me at the letterhead address.

Yours very truly,

Ronnie H. Westbrook
Vice-President
