Attention: C.P. Basham

*Administrative Order NSL-2743*

Dear Mr. Basham:

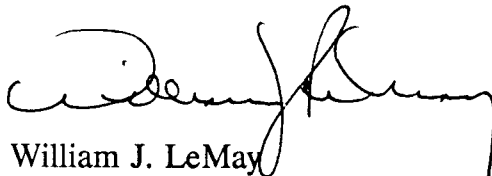

Reference is made to your application of December 11, 1989 for two non-standard Vacuum Grayburg San Andres producing oil well locations to permit the completion of an efficient production/injection pattern within the Vacuum Unit Pressure Maintenance Project Area, Lea County, New Mexico. Said well to be dedicated to the existing standard 40-acre oil spacing and proration unit comprising the SE/4 NE/4 (Unit H) of Section 2, Township 18 South, Range 34 East, NMPM, Vacuum Grayburg San Andres Pool, Lea County, New Mexico.

By the authority granted me under the provisions of General Rule 104 F(I), both of the following described unorthodox oil well locations are hereby approved:

Vacuum Grayburg San Andres Unit Well No. 139  
1980' FNL - 1282' FEL; and

Vacuum Grayburg San Andres Unit Well No. 140  
1980' FNL - 10' FEL.

Sincerely,

William J. LeMay  
Director
