Dear Mr. LeMay:

This letter is written on behalf of B.B.L., Ltd. B.B.L., Ltd. owns working interests in the acreage that offsets the requested non-standard gas well locations requested by Meridian Oil Inc. for the Basin Fruitland Coal Pool.

We are opposed to Meridian's requests for the non-standard gas well locations. To grant such locations would work a hardship on B.B.L., Ltd. and would create drainage problems for B.B.L., Ltd. We believe the established drainage patterns will best protect the correlative rights of all parties.

Also, B.B.L., Ltd. has approached Meridian about forming pooled units for recompletion possibilities in the Fruitland Coal in the same sections at standard locations. For these reasons we request that their requests be denied.

Yours very truly,

Ronald A. Holloway

Section 21, T-28-N, R-10-W
San Juan County, New Mexico

Dear Mr. LeMay:

This is a request for administrative approval for a non-standard gas well location in the Basin Fruitland Pool.

Meridian Oil intends to plugback and recomplete the Kutz Deep Test #1 well from the Pictured Cliffs pool to the Basin Fruitland Coal Pool. The current location of this well is 990'FSL, 1650'FEL, Section 21, T-28-N, R-10-W, San Juan County, New Mexico. The well is considered non-standard due to the NE-SW dedicated pattern established for the Basin Fruitland Coal Pool. To comply with the New Mexico Oil Conservation Division rules, Meridian is submitting the following for your approval of this non-standard location:

1. C-102 plat showing location of the well;
2. Plat showing offset owners/operators;
3. Affidavit of notification of offset owners/operators;
4. Copy of Well Completion Log for original completion.

A copy of this application is being submitted to all offset owners/operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Sincerely yours,

Peggy Bradfield
