Re: Fullerton Federal #14-33 Well
(Fruitland Sand Recompletion)
2420' FSL, 1995' FEL Section 14, T27N, R11W
San Juan Co., New Mexico

Gentlemen:

Bonneville Fuels respectfully requests administrative approval of an unorthodox Gallegos Fruitland Sand location. Bonneville Fuels plans to recomplete the Fruitland Sand (1558'-1574') and commingle with the existing Pictured Cliffs production. This well is an unorthodox location because of topographical considerations when the well was drilled and completed in the Pictured Cliffs.

Enclosed with this request is a land plat showing offsetting lease ownership/operators. Bonneville Fuels is the operator of all offsetting spacing units. Also enclosed is a C-102 form dedicating the SE 1/4 of Section 14 as the 160-acre spacing unit.

If you have any questions or require anything further to process this request, please contact the undersigned at (303) 863-1555.

Very truly yours,

Alan L. Merrill
Operations Engineer
