Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests your approval of our administrative application for the subject Unorthodox Gas Well Location and Simultaneous Dedication.

Chevron is planning to re-complete it's Arnott Ramsay (NCT-C) Well No. 5 in the Eumont Yates 7-Rvrs Qn (Pro Gas) Pool. It is our ~~desire~~ to simultaneously dedicate an existing 640-acre Eumont Gas Proration Unit assigned to our Arnott Ramsay (NCT-C) Well No. 13 to both of these wells. As a result, the location of the Arnott Ramsay Well No. 5 is unorthodox in that it is less than 990' from the outer boundary of the proration unit. The location of Well No. 5 is 660 feet FSL and 1980 feet FWL of Section 21, T-21-S, R-36-E, NMPM, Lea County, New Mexico.

In order to prevent waste, Chevron respectfully requests your approval of this administrative application for an unorthodox gas well location and simultaneous dedication under the provisions of Rule 104 (F). Attached is a map showing offset

operators and a Form C-102. A copy of this letter and attachments are being furnished to the offset operators by Certified Mail, as notice of this application.

If you have any questions or require any further information concerning this application, please contact me at (915) 687-7246.

Yours very truly,

A. W. BOHLING
