Re: Unorthodox Location for  
Celtic State #1  
1350' FNL, 990' FWL  
Section 13-T8S-R27E  
Chaves County, New Mexico

Gentlemen:

Elk Oil Company respectfully requests an administrative approval for an unorthodox location as provided for under NMOCD Rule 104F.

Our location for the above referenced well is 1350' FNL and 990' FWL. The reason for this request is the well was erroneously drilled at the requested location. Elk was granted an unorthodox location under order number NSL-3114 at a location of 1650' FNL and 990' FWL, Unit E. Elk drilled to a depth of 6750' and plugged back to the San Andres formation at 2369'. In reviewing the drillsite it was determined that Elk drilled the wrong location. (Elk had the surveyor spot two locations; 1350' FNL, 990' FWL and 1650' FNL, 990' FWL).

Enclosed please find a copy of the lease map enlarged to show offset operators. The offset operators are Collins & Ware, Inc. and Yates Petroleum Corporation who have agreed to our unorthodox location. Enclosed are copies of their signed waivers, along with our C-102 and C-105.

If you should have any questions concerning this matter, please do not hesitate to call. Thank you.

Yours very truly,

ELK OIL COMPANY
