Meridian Oil, Inc.
P.O. Box 4289
Farmington, New Mexico 87499-4289

Attention: Peggy Bradfield

Administrative Order NSL-3133

Dear Ms. Bradfield:

Reference is made to your application dated June 23, 1992 for a non-standard Basin-Fruitland coal gas well location for your existing Omler Well No. 5 which was drilled in 1954 and completed in the Fulcher Kutz Pictured Cliffs Pool at a standard gas well location 1120 feet from the South line and 1650 feet from the East line (Unit O) of Section 25, Township 28 North, Range 10 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone is to be downhole commingled with the Basin Fruitland Coal Gas Pool, and pursuant to the Special Rules and Regulations for the Basin Fruitland Coal Gas Pool, as promulgated by Division Order No. R-8768, as amended, said location is considered to be unorthodox.

By the authority granted me under the provisions of Rule 8 of said Order No. R-8768, as amended, the above-described unorthodox coal gas well location is hereby approved. Further, the E/2 of said Section 25 shall be dedicated to said well forming a standard 320-acre gas spacing and proration unit for said coal gas pool.

Meridian Oil, Inc.
Administrative Order NSL-3133
July 16, 1992
Page 2

Also, Meridian Oil, Inc. shall comply with all other provisions of said Order No. R-8768, as amended, pertaining to the downhole commingling of coal gas production with gas produced from the Pictured Cliffs interval.

Sincerely,

A handwritten signature in black ink, appearing to read 'William J. Lemay', is written over the typed name and title.
