Attention: John E. Funk

Administrative Order NSL-3171

Dear Mr. Funk:

Reference is made to your application dated August 3, 1992 for a non-standard Strawn gas well location for your existing Mesa Macho Com Well No. 1 which was drilled in mid-1976 and completed in the Burton Flat Morrow Gas Pool at a previously approved unorthodox gas well location (Division Order No. R-5968) 660 feet from the South line and 1980 feet from the East line (Unit O) of Section 24, Township 20 South, Range 27 East, NMPM, Eddy County, New Mexico.

It is my understanding that the Burton Flat Morrow Gas Pool will be properly plugged back and said well will be recompleted to the Strawn formation, which pursuant to Division General Rule 104.B is unorthodox. Further the E/2 of said Section 24 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Division General Rule 104.F.(1) the above-described unorthodox gas well location is hereby approved.

Said Division Order No. R-5968 shall be in placed in abeyance until further notice.

Sincerely,

WILLIAM J. LEMAY
Director
