Basin Fruitland Coal

Dear Mr. LeMay,

This is a request on behalf of IBEX Partnerships, Inc., for administrative approval of the above referred to unorthodox location.

I have outlined the legal spacing areas in the southwest quarter of section 1 on the attached topographic map. As you can see all standard locations in this area are comprised of steep cliffs or are already occupied by existing wells. The proposed location, also shown on the topographic map, is as close as possible to an offsetting well without infringing on their surface facilities.

Also attached is a plat indicating the offset Fruitland Coal operators and a list of offset operators and their addresses.

The offset Fruitland Coal operators are being notified of this application by certified return receipt mail. Copies of these letters are enclosed.

Thank you for your consideration and approval of this application. If you have any questions please do not hesitate to call upon me.

Sincerely,

Paul C. Thompson, P.E.
President
