RE: Request for Administrative Approval  
of an Unorthodox Basin Fruitland Coal Location  
R & G Drilling Company  
Krause #19  
950' FNL & 1025' FWL  
Section 28, T28N, R11W  
San Juan County, New Mexico

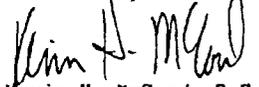

Gentlemen:

KM Production Company is the agent for R & G Drilling Company. R & G requests administrative approval of an unorthodox Basin Fruitland Coal formation gas well. They plan to recomplate their Krause #19 well (NW 1/4, Section 28, T28N, R11W) in the Fruitland Coal formation. This well is currently shut-in, but has produced 67,781 MCF from the Pictured Cliffs formation. This re-entry candidate is an unorthodox Fruitland Coal location in that it is located in the NW 1/4 of the section rather than the SW 1/4 or NE 1/4. The well in the SW 1/4 of Section 28 will be recompleted in the Fruitland Coal in the near future by R & G. There is no well owned by R & G in the NE 1/4 of Section 28.

You will find enclosed with this request a map showing the ownership of the leases around this well. This map also shows the wells offsetting this proposed re-entry. Also enclosed you will find an acreage dedication plat for this well and copies of this letter which were sent to offset leaseholders. As per NMOCD Regulations, by copy of this letter to offset leaseholders, R & G Drilling Co. is asking offset leaseholders that they vaive any objection to this Basin Fruitland Coal unorthodox location.

I believe this request provides all the information required by NMOCD Regulations for an unorthodox location. If any other information is needed, please call. Your prompt response to this request is appreciated.

Yours Truly,

  
Kevin H. McCord, P.E.  
Petroleum Engineer

enc.

The undersigned has no objection to the above location.

Conoco, Inc.
