Attention: Robert C. Chase

Administrative Order NSL-3213

Dear Mr. Chase:

Reference is made to your application dated December 21, 1992 for a non-standard oil well location to permit the completion of an efficient production/injection pattern within an existing secondary recovery project for your G-J West Coop Unit Well No. 106 to be located 2310 feet from the South line and 1480 feet from the West line (Unit K) of Section 21, Township 17 South, Range 29 East, NMPM, Grayburg-Jackson Pool, G-J West Coop Unit Waterflood Project Area, Eddy County, New Mexico. Said well to be dedicated to the existing standard 40-acre oil spacing and proration unit comprising the NE/4 SW/4 of said Section 21, which is presently dedicated to your G-J West Coop Unit Well No. 100.

By the authority granted me under the provisions of General Rule 104.F(1), the above-described unorthodox oil well location is hereby approved.

Sincerely,

WILLIAM J. LEMAY
Director
