Describe Cause of Problem and Remedial Action Taken.* Burton Flats Booster Station Units No. 1, 2, 3, 4, 5, 6 & 7 were shut down so construction could make new 12" pipeline tie ins to install a new pig launcher.		
Describe Area Affected and Cleanup Action Taken.* DCP dispatched a Field Operator to aid in shutting the booster station down. Once the tie-ins were complete, the Field Operator restarted the all units and the site was returned to normal.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
