Source of Release- Hole in fire tube on heater	Date and Hour of Occurrence- 12/31/2007 8:00 am	Date and Hour of Discovery 12/31/2007 9:00 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Pat Caperton	
By Whom? Donnie Ives	Date and Hour 12/31/2007 9:00 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken

Hole came in fire tube of 6' X 20' heater. Switched out production coming to heater and called out third party trucking company to pick up standing fluid. This being inside of battery with minimum water loss, we are requesting not do any extra clean up.

Describe Area Affected and Cleanup Action Taken.*

Fluid was contained within battery yard. Standing fluid was vacuumed up. DEPTH TO GW=20-25 ft.

Chlorides 28,000 Gravity of oil 39.5

Mild scrape up soils, w/in battery down about one foot and haul contaminated soil off & replace w/ clean soil.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
