**RE: OH Randel #7**

Dear Mr. Freeman,

This letter serves to alert the Navajo Nation EPA of work to be conducted at the OH Randel #7. The well site is located in Unit D of Section 16 of Township 26N, Range 11W, and includes six groundwater monitoring wells installed to investigate groundwater quality. XTO Energy, Incorporated (XTO) has hired Lodestar Services, Incorporated (Lodestar) to oversee groundwater monitoring at the site. A site map is attached for your review.

Lodestar visited the site in August 2007 to collect quarterly groundwater samples and discovered that groundwater monitoring well MW-5 had been damaged beyond repair. XTO intends to replace MW-5 on November 12, 2007 so that it can continue to be sampled on a quarterly basis to monitor progress at the site.

Should you have any questions or require additional information, please do not hesitate to contact Lisa Winn at 505-333-3196 or you may call me at 970-946-1093.

Sincerely,

**LODESTAR SERVICES, INC**

Ashley L. Ager
