Gentlemen:

The OCD recently received a C-137 for permit NM-01-0020 with \$100 check. Please note the facility with aforementioned permit is a closed facility or a facility that was never constructed. OCD does not charge fees for such facilities and the associated drawings did not match or conform to OCD specifications. Therefore, the OCD is returning the application and voided check # 6659.

OCD also understands that this application may have been for the current operating surface waste management facility NM-1-019 and detail discussions with Mr. Marley indicate this to be the case. OCD will address that issue in a separate letter.

If you have any questions please do not hesitate to call or write.

Sincerely,

A handwritten signature in black ink, appearing to read "Wayne Price", is written over a horizontal line.
