Re: In the Matter of the Application of
Mewbourne Oil Company for Administrative
Approval of an Unorthodox Well Location
for its Bubbling Springs "26" Federal #1
Well, located 1650' feet from the North
and West lines of Section 26, Township 20
South, Range 25 East, N.M.P.M., Eddy
County, New Mexico

Dear Mr. LeMay:

Mewbourne Oil Company hereby requests administrative approval of an unorthodox well location for its Bubbling Springs "26" Federal #1 Well pursuant to the provisions of Oil Conservation Division Rule 104 F. The proposed location will be in the Morrow formation at a point 1650' feet from the North and West lines of Section 26, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico. The north half of said Section 26 will be dedicated to the well. A plat showing the proposed unorthodox location, the spacing unit to be dedicated to the well and all offsetting owners or operators is attached hereto and incorporated into this application.

The proposed unorthodox location is necessary due to topographic and geologic conditions. Although Mewbourne Oil Company had originally selected an orthodox location in Unit F of Section 26, the Bureau of Land Management would not approve it because of a hillside cut, as shown on the plat attached to this application.

This well cannot be drilled at another standard location on the spacing unit for geologic reasons. The only other possible orthodox location for this test which might be topographically drillable is located 660' feet from the North line and 1980' feet from the West line in the Section. However, Mewbourne Oil Company considers that location extremely high risk and therefore unacceptable. Insufficient Middle Morrow Green Sandstone Net

Mr. William J. LeMay
May 6, 1994
Page 2

Porosity exists at that location to establish commercial production, effectively develop this natural resource, protect corrective rights and prevent waste.

For your reference, the discussed locations (1980' feet from the North line - 1980' feet from the West line, 1650' feet from the North line - 1650' feet from the West line and 660' feet from the North line - 1980' feet from the West line) in Section 26 are spotted on all of Mewbourne Oil Company's maps submitted in support of this application.

Reference is made to the Middle Morrow Green Sandstone Net Porosity Isopach Map. The Southern Union Supply Company's #1 Exxon Federal located 660' feet from the East line and 1980' feet from the South line of Section 26 was plugged in 1991 after producing 995 MMCF from the objective Middle Morrow Green Sandstone. It is Mewbourne Oil Company's opinion that significantly better developed reservoir quality rock exists in a favorable structural position west of the Southern Union Supply Company's #1 Exxon Federal.

Mewbourne Oil Company is very concerned about the absence of reservoir quality rock in the Southern Union Supply Company's #2 Exxon Federal located 660' feet from the South line and 1980' feet from the East line in Section 23 and Shell Oil Company's Shell International McKee Federal No. 1 located 1980' feet from the South line and 1980' feet from the East line in Section 27. We therefore desire to select a drill site located as far away as possible from these two wells.

In addition, Mewbourne Oil Company desires to point out that it has the East half of Section 27 under lease and would be encroaching upon itself.

Cross Section R-R' provides additional support for Mewbourne Oil Company's position.

Notice of this application has been provided by certified mail to all operators of all offsetting spacing or proration units. Attached to this application is an affidavit confirming that notice of this application has been provided in accordance with Division rules.

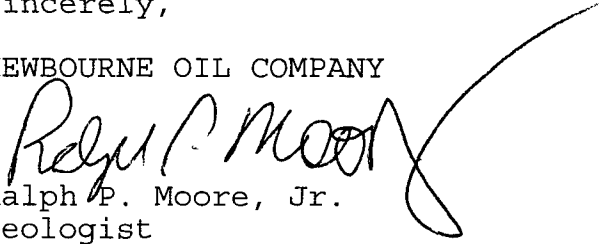

Directional drilling to reach a standard bottom hole location is not feasible because of economic considerations.

Mr. William J. LeMay
May 6, 1994

Re: Application of Mewbourne Oil Company for Administrative Approval of an Unorthodox Well Location for its Bubbling Springs "26" Federal #1 Well, located 1650 feet from the North and West lines of Section 26, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico

Gentlemen:

Mewbourne Oil Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking administrative approval of the above-referenced unorthodox well location for its Bubbling Springs "26" Federal #1 Well.

Pursuant to the provisions of Division Rule 104(F), the Division Director may approve this application on receipt of waivers from all offset operators or if no objection is received from an offset operator within 20-days after the Division receives this application.

As you will see from the enclosed plat, this unorthodox location only encroaches on a Mewbourne operated tract to the West. Accordingly, we request that as an offset operator you waive objection to this proposed unorthodox well location by signing a copy of this letter and returning it to me for filing with the Division.

Re: Application of Mewbourne Oil Company for Administrative Approval of an Unorthodox Well Location for its Bubbling Springs "26" Federal #1 Well, located 1650 feet from the North and West lines of Section 26, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico

Gentlemen:

Mewbourne Oil Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking administrative approval of the above-referenced unorthodox well location for its Bubbling Springs "26" Federal #1 Well.

Pursuant to the provisions of Division Rule 104(F), the Division Director may approve this application on receipt of waivers from all offset operators or if no objection is received from an offset operator within 20-days after the Division receives this application.

As you will see from the enclosed plat, this unorthodox location only encroaches on a Mewbourne operated tract to the West. Accordingly, we request that as an offset operator you waive objection to this proposed unorthodox well location by signing a copy of this letter and returning it to me for filing with the Division.
