Attention: Jerry W. Hoover

***CORRECTED Administrative Order NSP-1227
AND
Administrative Order NSL-3515(SD)***

Dear Mr. Hoover:

It was brought to my attention through your application for an unorthodox infill gas well location dated March 14, 1995 of an error in the description of the exsisting non-standard 160-acre, more or less, Eumont gas spacing and proration unit ("GPU") authorized by Division Administrative Order NSP-1227, dated December 16, 1980. The land description contained in said order shall be corrected to read in its entirety as follows:

"LEA COUNTY, NEW MEXICO
TOWNSHIP 21 SOUTH, RANGE 36 EAST, NMPM
Section 4: Lots 1, 2, 6, and 11".

Said GPU is currently dedicated to the Meyer "B-4" Well No. 15 (API No. 30-025-04475), located at a standard gas well location 7260 feet from the South line and 3300 feet from the East line (Lot 3/Unit C) of said irregular Section 4.

By authority granted me under the provisions of Rule 2(c) of the Special Rules and Regulations for the Eumont Gas Pool, as promulgated by Division Order No. R-8170, as amended, the following described well to be drilled at an unorthodox Eumont gas well location is hereby approved:

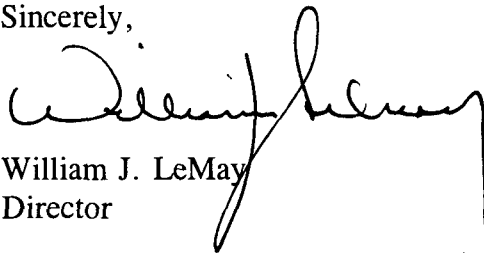

*Meyer "B-4" Well No. 31
2930'FNL - 2087'FWL (Lot 11/Unit "K")*

Corrected Administrative Order NSP-1227 and
Administrative Order NSL-3515(SD)
Conoco, Inc.
April 6, 1995
Page 2

Also, you are hereby authorized to simultaneously dedicate Eumont Gas Pool production from the Meyer "B-4" Well No. 31 with the Meyer "B-4" Well No. 15. Furthermore, you are hereby permitted to produce the allowable assigned the subject GPU from both wells in any proportion.

All other provisions of said Division Administrative Orders NSP-1227 shall remain in full force and effect until further notice.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay". The signature is fluid and cursive, with a long, sweeping underline that extends downwards and to the right.

William J. LeMay
