Yates Petroleum Corporation respectfully request administrative approval to Surface/ Pool Commingle the following wells:

(H/2) Creek AL Federal #19
Sec 25 T18S R30E
Hackberry/Morrow Shugart/Bone Spring
Eddy County, NM
Federal Lease # LC028990B
API#30-015-32896

(56405) Creek AL Federal #15
Sec 24 T18S R30E
Shugart/Bone Spring
Eddy County, NM
Federal Lease # NMLC028990B
API#30-015-32095

The battery is located at the Creek AL Federal #15. Please see attached plat and site facility diagram.

The production from the Creek AL Federal #15 and #19 is measured on lease and the total sales volumes will be allocated back to individual wells based on daily well test. *allocates meters*

Working interest owners are diversified and have been notified.

The proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production. Estimated daily production for the Creek AL Federal #15 is 25 bbls of oil, and 40 mcf and for the #19 is 15 bbls of oil and 0 mcf.

The purpose of the surface/pool commingling, lease commingling, off lease storage and measurement is to reduce operating costs for storage and treating, thereby extending the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to build separate facilities for each well. This will greatly increase costs and shorten the economic life of the well.

The proposed commingling is necessary for economic operation of the above referenced leases.

We understand that the request approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. And, we will submit within 30 days an application for right-of-way approval to the BLM's Realty Section in your office if we have not already done so.

14. I hereby certify that the foregoing is true and correct

Re: Surface/Pool Commingle
Hackberry/Morrow - Shugart/Bone Spring
Eddy County, New Mexico

Dear Interest Owner:

Yates Petroleum Corporation respectfully request administrative approval to Surface/Pool Commingle the following wells:

Federal

Creek AL Federal #19
Sec 25 T18S R30E
Hackberry/Morrow - Shugart/Bone Spring
Eddy County, NM
Federal Lease # LC028990B
API#30-015-32896

Federal

Creek AL Federal #15
Sec 24 T18S R30E
Shugart/Bone Spring
Eddy County, NM
Federal Lease # NMLC028990B
API#30-015-32095

The battery is located at the Creek AL Federal #15. Please see attached plat and site facility diagram.

The production from the Creek AL Federal #15 and #19 is measured on lease and the total sales volumes will be allocated back to individual wells based on daily well test.

The proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production.

The purpose of the Surface/Pool Commingling, is to reduce operating costs for storage and treating, thereby extending the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to built separate facilities for each well. This will greatly increase costs and shorten the economic life of the well.

The proposed commingling is necessary for economic operation of the above referenced leases.

Any objection must be filed in writing with District Office within 20 days from the date the division received the application.

If you should have any questions, please give me a call at (505) 748-4213 (direct line).

Sincerely,

Mayte Reyes
Production Clerk
