I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Operator,

The New Mexico Oil Conservation Division District 2 Office (OCD) is in receipt of an Initial Report C-141 (report) for a release of produced water and iron sludge occurring at the above referenced facility on May 5, 2008. Stated on the C-141 is "...vertical and horizontal delineation will be made and corrective action taken."

This report is accepted with the following stipulations:

- Notify the OCD 48 hours prior to obtaining samples where analyses are to be submitted to the OCD.
- Remediation work Plan (as warranted per soil analytical data) to be submitted to OCD on or before **June 27, 2008**.
- Results of analytical data obtained through sampling shall be forwarded to OCD for approval **prior** to any backfilling activities should excavation have occurred.
- Remediation requirements may be subject to change as site conditions warrant.
- Remediation activities to be completed on or before **July 28, 2008**.
- A final Report C-141 including all documentation is to be submitted to OCD upon satisfactory completion of remediation project.

Remediation requirements may be subject to other federal, state, local laws and/or regulations. Additionally, please be advised that OCD approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment.

Thank you for your attention to these matters. If I can be of assistance, you may reach me at the contact information listed below.

Respectfully,

Sherry Bonham
