Dear Mr. Stogner:

Pursuant to Division Rule 104.F.(2), Santa Fe Snyder Corporation applies for administrative approval of an unorthodox well location and a non-standard proration unit for the following well:

Jones Canyon "4" Fed. Well No. 5
1699 feet FNL & 2576 feet FEL
Lots 1, 2, S $\frac{1}{2}$ NE $\frac{1}{4}$, and SE $\frac{1}{4}$ (E $\frac{1}{2}$ equivalent) of Section 4,
Township 22 South, Range 24 East, NMPM, containing 345.88
acres, more or less
Eddy County, New Mexico

Attached as Exhibit A is a Form C-102 for the well. The well will be drilled to test the Cisco/Canyon formation (Indian Basin-Upper Pennsylvanian Associated Pool). The pool is spaced on 320 acres, with no more than one well per 80 acre tract. Wells must be no closer than 660 feet to the outer boundary of a well unit, and no closer than 330 feet to a quarter-quarter section line. The proposed well is unorthodox because it is too close to the outer boundary of the well unit.

The location is non-standard due to topographic reasons. Attached as Exhibit B is a topographic map, which shows that the wellsite is in a flat area. The well had to be moved west of an orthodox location, at the request of the Bureau of Land Management, to avoid an area of high relief to the east of the well.

Submitted as Exhibit C is a land plat of the subject area. All of Section 4 is comprised of a single federal lease (NM 83097), with common ownership throughout the section. The well is moving toward an interior boundary of the lease, and thus no operator has been notified of this application.

The E½ of Section 4 will be simultaneously dedicated to the proposed well and the existing Jones Canyon "4" Well No. 2, which is located in Unit J of Section 4. The location for that well was approved by Division Administrative Order NSL-3628.

Please call me if you need further information on this matter.

Very truly yours,

Attention: James Bruce

Administrative Order NSL-3628

Dear Mr. Bruce:

Reference is made to your application dated January 19, 1996 on behalf of the operator, Santa Fe Energy Resources, Inc., for a second well to be drilled at an unorthodox location within an existing standard 320-acre spacing and proration unit in the Indian Basin-Upper Pennsylvanian Associated Pool.

Said 320-acre standard spacing and proration unit comprises the S/2 of Section 4, Township 22 South, Range 24 East, NMPM, Eddy County, New Mexico, and is currently dedicated to the Jones Canyon "4" Federal Well No. 1 (API No. 30-015-28076), located at a standard location 660 feet from the South line and 2300 feet from the West line (Unit N) of said Section 4.

It is our understanding that the subject well in this application, the Jones Canyon "4" Federal Well No. 2 (API No. 30-015-28779), is to be located 1505 feet from the South line and 2381 feet from the East line (Unit J) of said Section 4.

By authority granted me under the provisions of Rule 2(c) of the "General Rules and Regulations for the Associated Oil and Gas Pools of Northwest and Southeast New Mexico/Special Rules and Regulations for the Indian Basin-Upper Pennsylvanian Associated Pool", as promulgated by Division Order Nos. R-9922 and R-5353, as amended, the above-described unorthodox location for the proposed Jones Canyon "4" Federal Well No. 2 is hereby approved.

Further, the operator is authorized to continue operating the above-described standard 320-acre spacing and proration unit, with allowable assigned thereto in accordance with Rule 22 of said special pool rules.

Sincerely,

William J. LeMay
Director
