Application for Non-Standard Well Location  
Vandewart B Well No. 3M  
W/2 Section 11-T291N-R08W  
Basin Dakota and Blanco Mesaverde Pools  
San Juan County, New Mexico

BP America Production Company respectfully requests an administrative approval for a non-standard well location for the Vandewart B Well No. 3M to be drilled at a location of 880' FNL and 2055' FWEL of Section 11, T291N-R08W. The non-standard location is necessitated by topographical and archeological conditions and would insure the conservation of surface and subsurface resources in the area.

Topographical obstructions within the legal drilling area are sever terrain - rough sloping terrain, BLM RMP Resource Management Area, and the proximity of the location to the NIPI irrigation tunnel. To aid in your review attached is a C-102 Well Location Plat showing the well location, a topographical map (APD Map # 1), and a 9 section plat showing the offset wells and operators.

Listed below is all offset operators who are being furnished a copy of this application via certified mail return receipt requested.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in cursive script that reads "Mary Corley".
