Activity: Installation of recovery well

Greetings Edward

Please accept this message as notification of activities at the above referenced site. Pending State Land Office (SLO) approval of the amendment to our water easement we plan to install a 4-inch diameter groundwater recovery well in accordance with the *Amended Stage 2 Abatement Plan* (AP-67) submitted to the NMOCD on April 18, 2008. The scheduled date for this activity is during the week of September 29th, or soon after SLO approval of the easement amendment. Maps showing the planned location for the recovery well are attached. Further notification of the other planned activities (excavation and backfilling) at the site is forthcoming. If the date of scheduled activity is delayed we will update you with the revised schedule. If you have any questions please feel free to contact me or Hack Conder at ROC (505-393-9174).

Thanks - Gil
