## ADMINISTRATIVE APPLICATION CHECKLIST

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

### Application Acronyms:

[NSL-Non-Standard Location] [NSP-Non-Standard Proration Unit] [SD-Simultaneous Dedication]  
 [DHC-Downhole Commingling] [CTB-Lease Commingling] [PLC-Pool/Lease Commingling]  
 [PC-Pool Commingling] [OLS - Off-Lease Storage] [OLM-Off-Lease Measurement]  
 [WFX-Waterflood Expansion] [PMX-Pressure Maintenance Expansion]  
 [SWD-Salt Water Disposal] [IPI-Injection Pressure Increase]  
 [EOR-Qualified Enhanced Oil Recovery Certification] [PPR-Positive Production Response]

[1] **TYPE OF APPLICATION** - Check Those Which Apply for [A]

- [A] Location - Spacing Unit - Simultaneous Dedication  
 NSL  NSP  SD

Check One Only for [B] or [C]

- [B] Commingling - Storage - Measurement  
 DHC  CTB  PLC  PC  OLS  OLM

- [C] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery  
 WFX  PMX  SWD  IPI  EOR  PPR

- [D] Other: Specify \_\_\_\_\_

[2] **NOTIFICATION REQUIRED TO:** - Check Those Which Apply, or Does Not Apply

- [A]  Working, Royalty or Overriding Royalty Interest Owners  
 Offset Operators, Leaseholders or Surface Owner  
 Application is One Which Requires Published Legal Notice  
 Notification and/or Concurrent Approval by BLM or SLO  
U.S. Bureau of Land Management - Commissioner of Public Lands, State Land Office  
 For all of the above, Proof of Notification or Publication is Attached, and/or,  
 Waivers are Attached

[3] **SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION INDICATED ABOVE.**

[4] **CERTIFICATION:** I hereby certify that the information submitted with this application for administrative approval is accurate and complete to the best of my knowledge. I also understand that no action will be taken on this application until the required information and notifications are submitted to the Division.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

RECEIVED

STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL  
RESOURCES DEPARTMENT

**Oil Conservation Division**  
1220 South St. Francis Dr.  
Santa Fe, New Mexico 87505

FORM C-108  
Revised June 10, 2003

**APPLICATION FOR AUTHORIZATION TO INJECT**

- I. PURPOSE:  Secondary Recovery      Pressure Maintenance      Disposal      Storage  
Application qualifies for administrative approval?  Yes       No
- II. OPERATOR: XTO Energy, Inc.
- ADDRESS: 200 N. Loraine, Ste. 800 Midland, TX 79705
- CONTACT PARTY: Kristy Ward      PHONE: 432-620-6740
- III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection.  
Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project?  Yes       No  
If yes, give the Division order number authorizing the project: R-7766-C & R-7766-B
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review. **Attached.**
- VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail. **Attached.**
- VII. Attach data on the proposed operation, including: **Attached.**
1. Proposed average and maximum daily rate and volume of fluids to be injected;
  2. Whether the system is open or closed;
  3. Proposed average and maximum injection pressure;
  4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,
  5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- \*VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval. **Attached.**
- IX. Describe the proposed stimulation program, if any. **Attached.**
- \*X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be resubmitted).  
**Logs Attached.**
- \*XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken. **Attached.**
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water. **Attached.**
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form. **Attached.**
- XIV. Certification: I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

NAME: Kristy Ward      TITLE: Regulatory Analyst

SIGNATURE: Kristy Ward      DATE: October 13, 2008

E-MAIL ADDRESS: kristy\_ward@xtoenergy.com

\* If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be resubmitted. Please show the date and circumstances of the earlier submittal:

### III. WELL DATA

A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include: **Attached.**

(1) Lease name; Well No.; Location by Section, Township and Range; and footage location within the section.

(2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.

(3) A description of the tubing to be used including its size, lining material, and setting depth.

(4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District Offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.

(1) The name of the injection formation and, if applicable, the field or pool name. **Eunice Monument;Grayburg-San Andres**

(2) The injection interval and whether it is perforated or open-hole. **3680' – 3807' - Perforated**

(3) State if the well was drilled for injection or, if not, the original purpose of the well. **Oil Well - Producer**

(4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations. **See Wellbore Diagram Attached.**

(5) Give the depth to and the name of the next higher and next lower oil or gas zone in the area of the well, if any.

**Next higher is Penrose-bottom is @ 3613' & Next lower is San Andres – top of SA is @ 3832'.**

### XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location. **Attached.**

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include: **Attached.**

(1) The name, address, phone number, and contact party for the applicant;

(2) The intended purpose of the injection well; with the exact location of single wells or the Section, Township, and Range location of multiple wells;

(3) The formation name and depth with expected maximum injection rates and pressures; and,

(4) A notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, 1220 South St. Francis Dr., Santa Fe, New Mexico 87505, within 15 days.

**NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.**

---

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

## INJECTION WELL DATA SHEET

1. Is this a new well drilled for injection? Yes  No   
If no, for what purpose was the well originally drilled? Oil Producer \_\_\_\_\_
2. Name of the Injection Formation: Grayburg \_\_\_\_\_
3. Name of Field or Pool (if applicable): Eunice Monument \_\_\_\_\_
4. Has the well ever been perforated in any other zone(s)? List all such perforated intervals and give plugging detail, i.e. sacks of cement or plug(s) used. See Wellbore Diagram \_\_\_\_\_
5. Give the name and depths of any oil or gas zones underlying or overlying the proposed injection zone in this area:  
San Andres @ 3832' below \_\_\_\_\_  
Penrose @ 3613' above \_\_\_\_\_

**XTO Energy, Inc.**  
**Eunice Monument South Unit #210 - CTI**  
**API #30-025-04469**  
**Section 4, T-21S, R-36E**  
**Lea County, New Mexico**  
**C-108 (Application for the Authorization to Inject)**

## **VII. Data For Proposed Operation**

1. Proposed average and maximum daily rate and volume of fluids to be injected.

Average daily rate of 500 BWIPD  
Maximum daily rate of 1000 BWIPD

2. System is closed.

3. Proposed average and maximum injection pressure:

Average injection pressure of 700 psi  
Maximum injection pressure of 800 psi

4. The source of the injection fluids will be the produced water from existing Eunice Monument South Unit producers (see attached water analysis).

5. N/A

## **VIII. Geologic Data**

Water injection will be into the Grayburg Formation at a depth of 3613'-3830'. The Grayburg is a porous dolomite. This well was a producing oil well and is being converted to a water injection well to support oil production from surrounding wells. The top of the Grayburg is picked at 3455' and this well does not penetrate to the base of the formation which is known to be approximately 240' thick in this area.

## **IX. Proposed Stimulation Program**

The CIBP will first be drilled out and the well cleaned out to its PBTD. The perforations will then be washed with a sonic hammer tool using brine water before being acidized with 1,500 gals 20% 90/10 acid. Approximately one month later, or after the injection rate and pressure have stabilized, an injection profile will be run.

## **X. Well Test Information**

No Well Test information available due to well being TA'd for years. Logs are attached.

## **XI. Chemical Analysis**

Chemical Analysis of fresh water from two or more fresh water wells within one mile of any injection or disposal well showing location of wells and dates samples were taken.

Water and Chemical Analysis are attached.

## **XII. Geological Statement**

XTO has examined the available geologic and engineering data and we find no evidence that there are any open faults or other hydrologic connection between the Grayburg injection zone and any groundwater resources in this area.

## **XIII. Proof of Notice**

Proof of Notice on Attached Page.

Re: Offset Operator Notification  
Eunice Monument South Unit #210  
API #30-025-04469

To Whom It May Concern:

This letter is to notify you that XTO Energy Inc. has submitted to the Oil Conservation Division, an application to convert a well to injection. Our records indicate that you are an offset operator. Attached is a copy of the application sent to the Oil Conservation Division for your review.

All interested parties must file objections or requests for hearing with the Oil Conservation Division, 1220 South St. Francis Dr., Santa Fe, NM 87505, within 15 days.

If you have any questions please call me at 432-620-6740.

Sincerely,

A handwritten signature in cursive script that reads "Kristy Ward".

## LEGAL NOTICE May 6, 2008

Notice of application for Fluid Injection Well Permit  
Eunice monument South Unit #210  
XTO Energy, Inc., 200 N. Lorraine, Ste. 800, Midland,  
Texas 79701, Attention- Kristy Ward- 432-620-6740, has  
applied for a permit to inject fluid into a formation  
which is productive of oil and gas. The applicant pro-  
poses to inject fluid at the location of Unit Ltr. C, Sec-  
tion 4, Township-21S, Range-36E, footage location of  
the well is 4620' FSL & 1980'FWL. The API # is 30-025-  
04469. Fluid will be injected into the grayburg forma-  
tion at a depth interval from 3680'-3807', with a maxi-  
mum injection rate of 1000BWIPD and a maximum in-  
jection pressure of 800psi.

All interested parties must file objections or requests  
for hearing with the oil conservation Division, 1220  
South St. Francis Dr., Santa Fe, NM 87505, within 15  
days.
