**Subject:** CBS Operating Corp - NSLU-Request for Extension to PMX-224 & PMX 225

Will,

PMX Orders 224 & PMX Orders 225 are set to expire on March 31, 2009 and April 12,2009. CBS Operating Corp. respectfully

request a one year extension to the orders to facilitate CBS's continuing efforts to increase injection volumes in the North Square Lake Unit.

CBS increased injection volumes at the North Square Lake Unit in 2008 to 775,456 bw from 319,001 bw in 2007. This caused a reversal of

production decline, resulting in a 15 % production increase in 2008 vs 2007. CBS intends on continuing it's efforts in 2009 to increase injection capacity

in the North Square Lake Unit, to further enhance production and the ultimate recovery from the NSLU. Your consideration of this extension request is appreciated.

If you need any additional information to evaluate this request, please do not hesitate to contact me.

Sincerely,

Manny Sirgo
