Describe Area Affected and Cleanup Action Taken.\*

Remediate to NMOCD Requirements. Refer to Attached Closure Report for further remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

RE: FINAL REPORT/ REPORTABLE SPILL 01/28/09  
L. I. Baker Battery/API# 30-025-10054

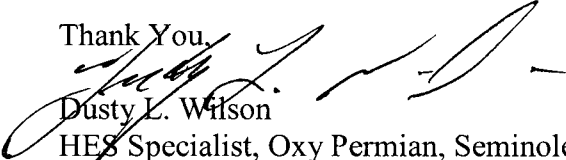

To Whom It May Concern:

This spill occurred on 01/28/2009 and was reported to the NMOCD via telephone the next day. Oxy reported a loss of 12 bbls of oil. 12 bbls of oil were recovered by vac truck the day of the release. The original C-141 form was hand delivered to the NMOCD 02/09/2009. The affected spill area was contained within the above listed well location site, and affected a 30' X 30' area at the surface level. A visual inspection of the site showed that all of the lost fluids were recovered via vac truck at the time of the spill. Soil samples were obtained from the spill site area to confirm that no fluids were on the ground long enough to soak into the underlying soils. A backhoe, was used to backdrag the surface for cosmetic purposes only, and remediation completed.

This letter is to inform the NMOCD that all remediation for this spill was completed to NMOCD standards, and to close this spill site. If any further information is needed please feel free to contact Dusty Wilson, HES Specialist, Oxy Permian, at (575) 441-7189.

A copy of the original C-141, Analytical results, and a site diagram are being sent with this letter. Thank you for your attention on this matter.

Thank You,

  
Dusty L. Wilson

RE: LI Baker Battery Project Data

Enclosed are the results for sample(s) received on 02/18/09 15:30 by Argon Laboratories. The sample(s) were analyzed according to instructions in accompanying chain-of-custody. Results are summarized on the following pages.

Please see quality control report for a summary of QC data pertaining to this project.

The sample(s) will be stored for 30 days after completion of analysis, then disposed of in accordance with State and Federal regulations. Sample(s) may be archived by prior arrangement.

Thank you for the opportunity to service the needs of your company.

Sincerely,

Hiram Cueto  
Lab Manager
