NATURE OF RELEASE

Type of Release – Produced Water/Crude Oil	Volume of Release – 200/60 bbls	Volume Recovered – 25 bbls
Source of Release – Flowline	Date and Hour of Occurrence –	Date and Hour of Discovery –
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Eric Nelson – NM State Land Office	
By Whom? – Rick Kerby	Date and Hour –	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

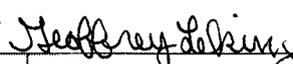

If a Watercourse was Impacted, Describe Fully.*

WATER @ 109.03

Describe Cause of Problem and Remedial Action Taken.* Spill from flowline ran in the pasture. 25 bbls was vacuumed up and line was repaired.

Describe Area Affected and Cleanup Action Taken.* Groundwater in the area is 109.03' using a monitor well that was set at the site. A vertical and horizontal delineation was completed. The remediation plan is to excavate 4' of impacted soil and haul to Gandy Marley Disposal. At the 4' depth a 4 oz. Geotextile liner will be installed, then a 20 mil poly liner then another layer of 4 oz. Geotextile liner. Clean native soil will then be backfilled into the excavation and contoured to the surrounding area. The site will be seeded with an approved seed mixture. A final report will be submitted at the completion of the project.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
