RE: Administrative Approval Request
Non-Standard Location
State Lease #E-2943
Continental "A" State #16-~~A~~
980' FSL & 1300' FEL
Township 19 South, Range 29 East, NMPM
Section 10
Eddy County, New Mexico
Proposed TD 2400' (7RVRS-QN)

Dear Sir:

Myco Industries, Inc. requests administrative approval to drill the above captioned well as a Non-Standard location depicted on the attached land plat and C-102. Myco's Lease Record Sheet is also attached.

The location will be greater than 330' from any lease not 100% owned and operated by Myco Industries, Inc., to the proposed depth. Myco Engineering studies suggest that 20-acre spacing may be warranted in select areas and the proposed well should help test the economic feasibility of 2 wells per 40-acres.

The oil and gas will be transported via a 2-3/8' pipeline to Myco's Continental "A" State Tank Battery located some 1500' to the NE (Unit I, Section 11, Township 19 South, Range 29 East). Myco also has a GPM gas sales meter at this battery. The wells currently going to this battery are as follows: Continental "A" State #4-A, Continental "A" State #8-~~A~~, Continental "A" State #10-~~A~~, Continental "A" State #11-~~A~~, Continental "A" State #13-~~A~~, and Continental "A" State #15-~~A~~. Myco owns 100% of the WI in these wells, also. All wells, including the proposed well, are on State Lease #E-2943. The only ORI on the existing wells and the proposed well is to the State of New Mexico (1/8th).

Myco has a drilling contract for this well and we are ready to spud when your approval is granted.

Please do not hesitate to call me at (505) 748-4247 for any questions or additional information.

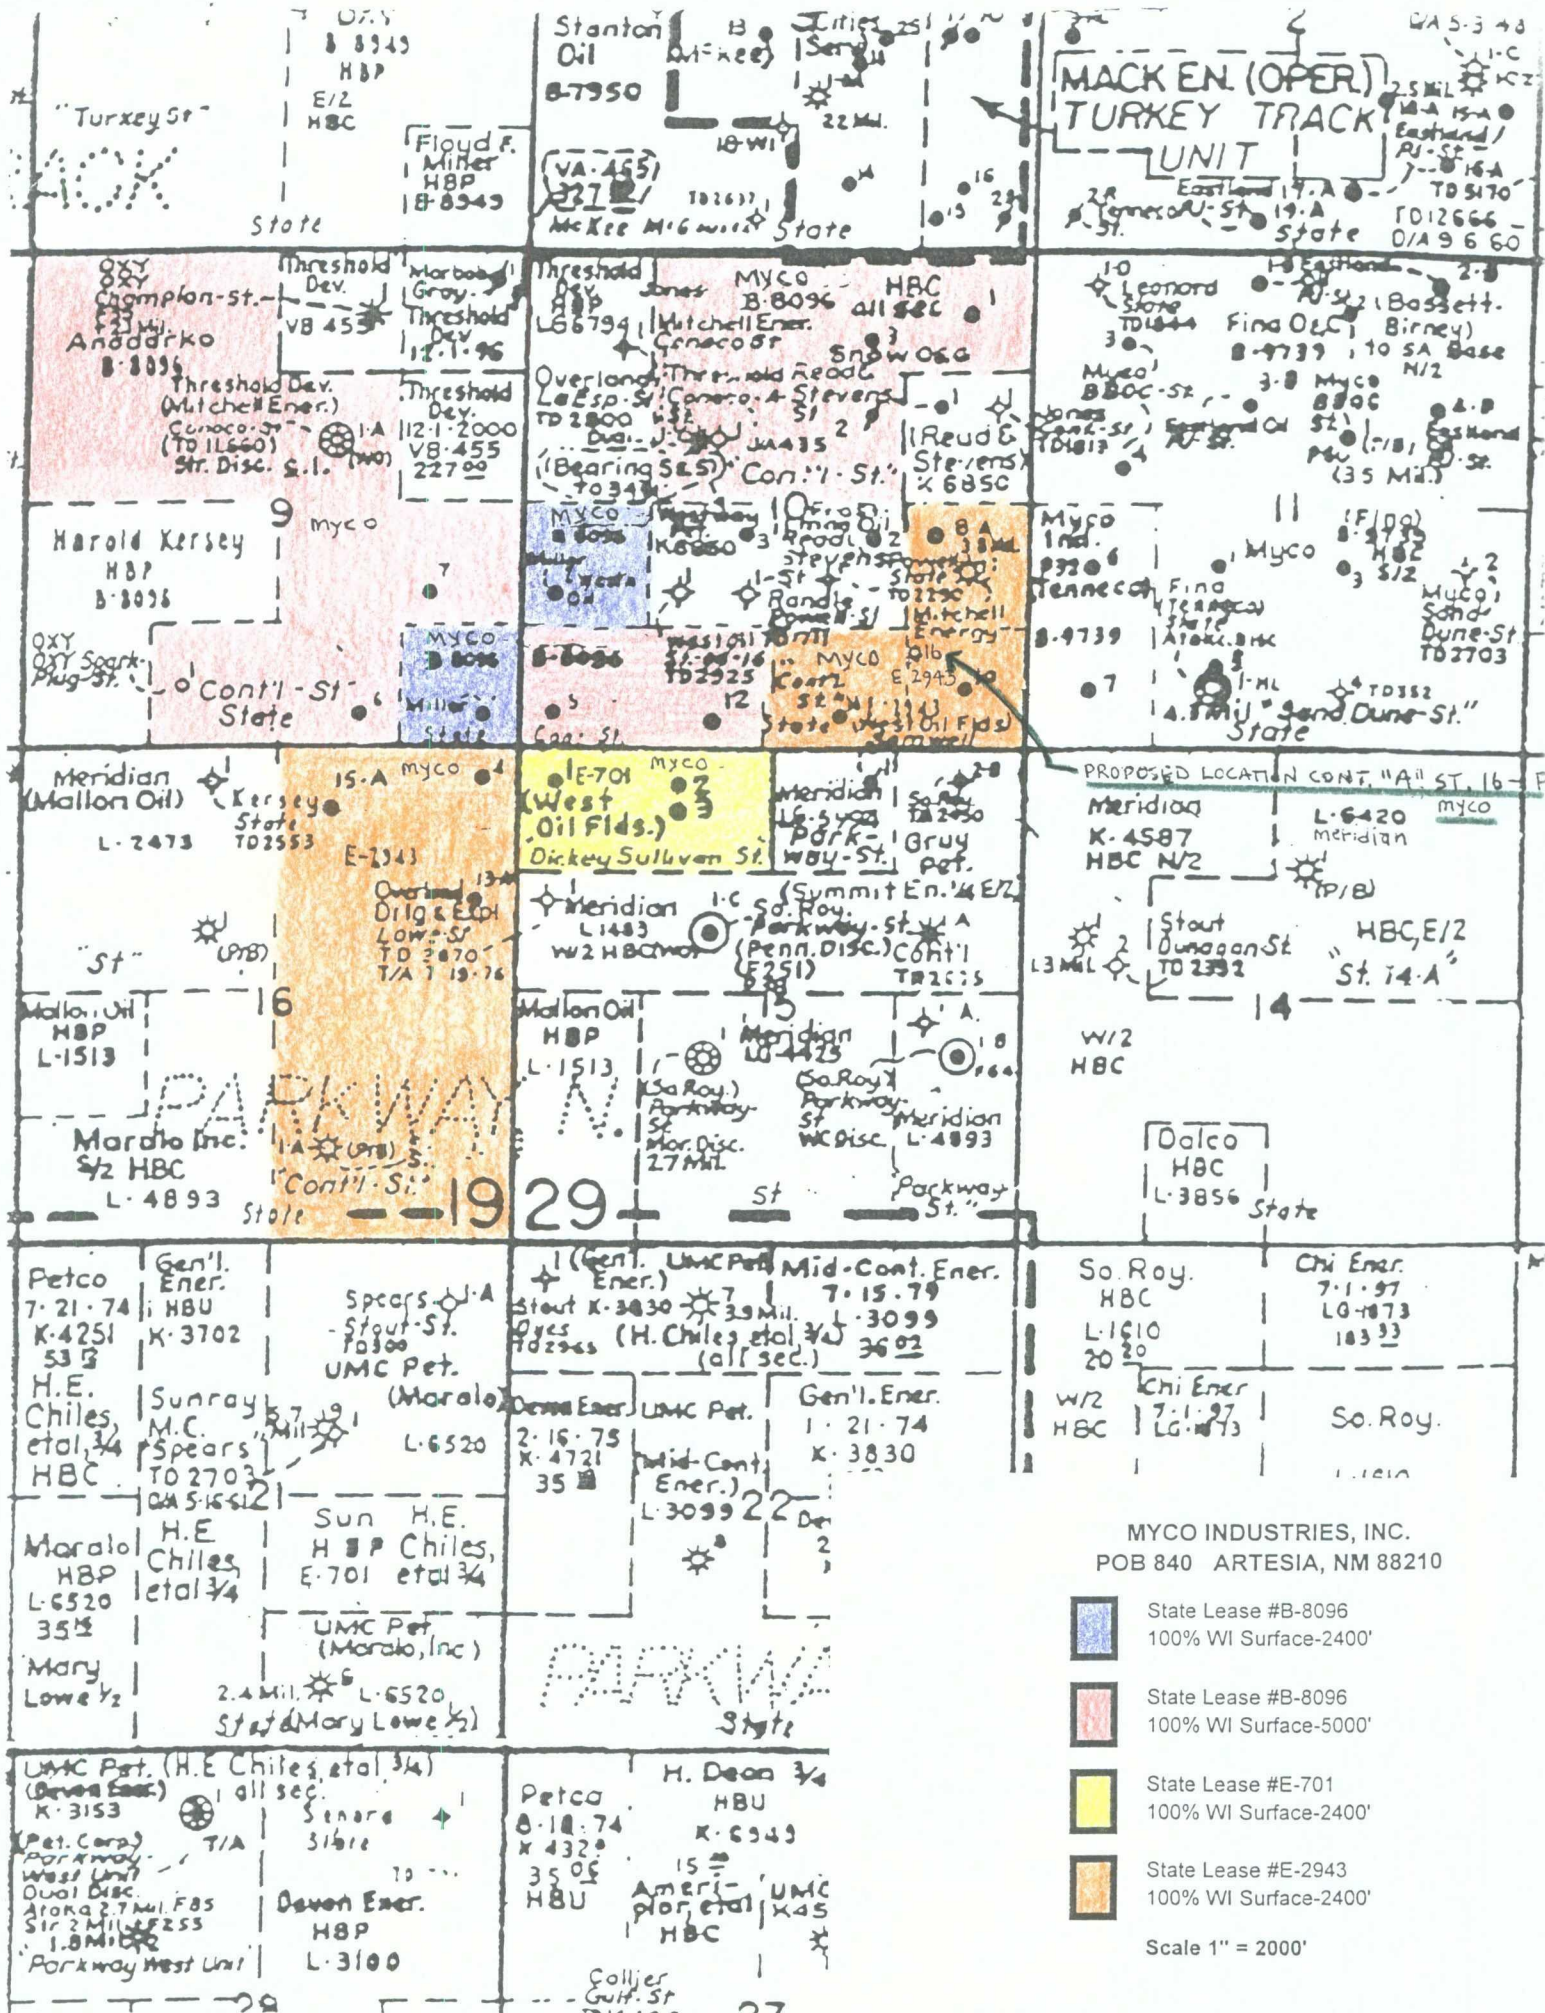

Sincerely,

Nelson Muncy, PELS
Operations Manager
