Administrative Order NSL-4262

Dear Mr. Bruce:

Reference is made to the following: (i) your application dated October 5, 1998 on behalf of the operator, Devon Energy Corporation (Nevada) ["Devon"]; and (ii) the records of the New Mexico Oil Conservation Division ("Division") in Santa Fe, including the file in Case No. 11966, which resulted in Division Order No. R-11162 dated April 13, 1999: all concerning Devon's request for an unorthodox oil well location in the Red Lake (Queen-Grayburg-San Andres) Pool for its proposed Windfohr "4" Federal Well No. 7 (API No. 30-015-30460) to be drilled 1140 feet from the South line and 1105 feet from the East line (Lot 20/Unit P) of Section 4, Township 18 South, Range 27 East, NMPM, Eddy County, New Mexico.

Lot 20 (SE/4 SE/4 equivalent) of Section 4 is to be dedicated to this well in order to form a standard 37.80-acre oil spacing and proration unit within the Red Lake (Queen-Grayburg-San Andres) Pool.

Further, the entire SE/4 equivalent of Section 4 is a single Federal lease (United States Government Lease No. LC-061783-A) in which Devon is the leasehold operator; therefore, there are no effected offsets to the subject 37.80-acre tract other than Devon.

The application has been duly filed under the provisions of Division Rule 104.F.

By the authority granted me under the provisions of Division Rule 104.F(2), the above-described unorthodox oil well location is hereby approved.

Sincerely,

Lori Wrotenbery
Director
