Re: Non-Standard Location Application
South Taylor 13 Federal No. 5 Well
Section 13, T-18-S, R-31-E
1697 FSL & 1600 FEL
Shugart Yates Seven Rivers Queen Grayburg Pool
Lea County, New Mexico

Dear Mr. Brooks:

Per our recent telephone conversation, Nadel and Gussman HEYCO, L.L.C. (NGH) respectfully requests an exception for Non-Standard Location. The proposed location for South Taylor 13 Federal No. 5 Well is 1697 FSL & 1600 FEL, Section 13, T-18-S, R-31-E, Unit J. The well is set to be completed in the Shugart Yates Seven Rivers Queen Grayburg Pool. Special pool rules do not apply to this pool. According to OCD guidelines, the proposed location is unorthodox by approximately 50', being 280' from the east quarter-quarter line of the NW/4 SE/4.

NGH originally proposed a legal location in the NW/4 SE/4. However, due to a multiple line pipeline right-of-way NGH decided to move the location, resulting in the Non-Standard Location. In this area directional drilling is neither economic nor practical.

Please find enclosed a land plat reflecting the offset acreage. The acreage being encroached on (by 50') is the NE/4 SE/4 of Section 13. NGH owns and operates the offset acreage and all interests are the same. In addition, please find enclosed, a copy of the C-102 submitted for this well.

Once again we respectfully request the approval of a Non-Standard Location. Thank you for your assistance in this matter and if additional information is needed, please contact me at 575-623-6601.

Sincerely,

Colby Booth
Landman
