If a Watercourse was Impacted, Describe Fully.*

RECEIVED
JUN 16 2009
HOBBSOCD

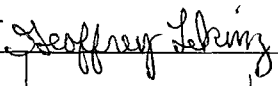

Describe Cause of Problem and Remedial Action Taken.*

Tank leaked due to internal corrosion. Tank was emptied, cleaned and will be recoated and returned to service.

Describe Area Affected and Cleanup Action Taken.*

Fluid was contained within the bermed facility area. Area around tank and berm will be scraped and restored with clean material. Oily dirt will be taken to the Hendrix landfarm. Ground water is approximately 90' BGS at this location.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
