## Administrative Order NSL-6052

**Re: Rosa Unit Well No. 138D  
API No. 30-045-34959  
2280 feet FNL and 820 feet FEL  
Unit H, Section 17-31N-6W  
San Juan County, New Mexico**

Dear Ms. Riley:

Reference is made to the following:

(a) your application (**administrative application reference No. pKAA09-16053450**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on June 9, 2009, and

(b) the Division's records pertinent to this request.

Williams Production Co., LLC [OGRID 120782] (Williams) has requested to drill the above-referenced well as a directional well from the surface location described in the caption of this letter, to an unorthodox bottom hole location in the Mancos and Dakota formations, 1000 feet from the North line and 200 feet from the East line (Unit A) of Section 17, Township 31 North, Range 6 West, in San Juan County, New Mexico. The E/2 of Section 17 will be dedicated to this well in order to form a standard 320-acre, more or less, gas spacing unit in the Basin Mancos Gas Pool (97232) and in the Basin Dakota Gas Pool (71599). Spacing in the Basin Mancos Gas Pool is governed by the Special Rules for the Basin-Mancos Gas Pool, as promulgated in Order R-12984, issued on September 3, 2008, which provide for 320-acre units, with wells located at least 660 feet from a unit outer boundary. Spacing in the Basin Dakota Gas Pool is governed by Rules II.A and II.C of the Special Rules and Regulations for the Basin-Dakota Gas Pool, as most recently amended by Order No. R-10987-B(2), which also generally provide for 320-acre units, with wells located at least 660 feet from a unit outer boundary.

June 30, 2009

Page 2

This location is less than 660 feet from the eastern unit boundary.

Your application has been duly filed under the provisions of Division Rules 15.13.C and 4.12.A(2).

It is our understanding that you are seeking this location for engineering reasons, to facilitate optimal production from this reservoir.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 4.12.A(2), in all adjoining units towards which the proposed bottom-hole location encroaches.

Pursuant to the authority conferred by Division Rule 15.13.B, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 5.9.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Fesmire', with a long horizontal flourish extending to the right.

Mark E. Fesmire, P.E.  
Director
