Re: Kurland 6 Federal # 2

Eddy County, New Mexico

Gentlemen:

Devon Energy Production Company, L.P. (Devon), as Operator, intends to drill the referenced Morrow well to a depth of approximately 11,700'. Devon initially attempted to stake and permit this well at an orthodox location of 3300' FSL & 660' FWL. However, due to the proximity of the location to the Avalon Reservoir and the attendant lease elevation stipulations associated therewith, the Bureau of Reclamations (BOR) has required Devon to move the location. The closest drillable location as approved by the BOR is located 3000' FNL & 610' FWL which is an unorthodox location as it is closer than 660' to the outer boundary of the designated spacing unit pursuant to the Burton Flat East Morrow Pool Rules.

Inasmuch as this well will be producing from an unorthodox location from that permitted by the Burton Flat East Morrow Pool Rules, Devon respectfully requests that the Commission administratively approve this application for an unorthodox location in accordance with Division Rule 104(F)(3). Fasken Oil & Ranch, Ltd. and Merit Energy Company as offset operators have been given notice of this application.

Attached you will find a land plat reflecting Fasken Oil & Ranch, Ltd. and Merit Energy Company as the offset operators, a net Lower Morrow B Sand Isopach map, a State of New Mexico form C-102 and a topographic map.

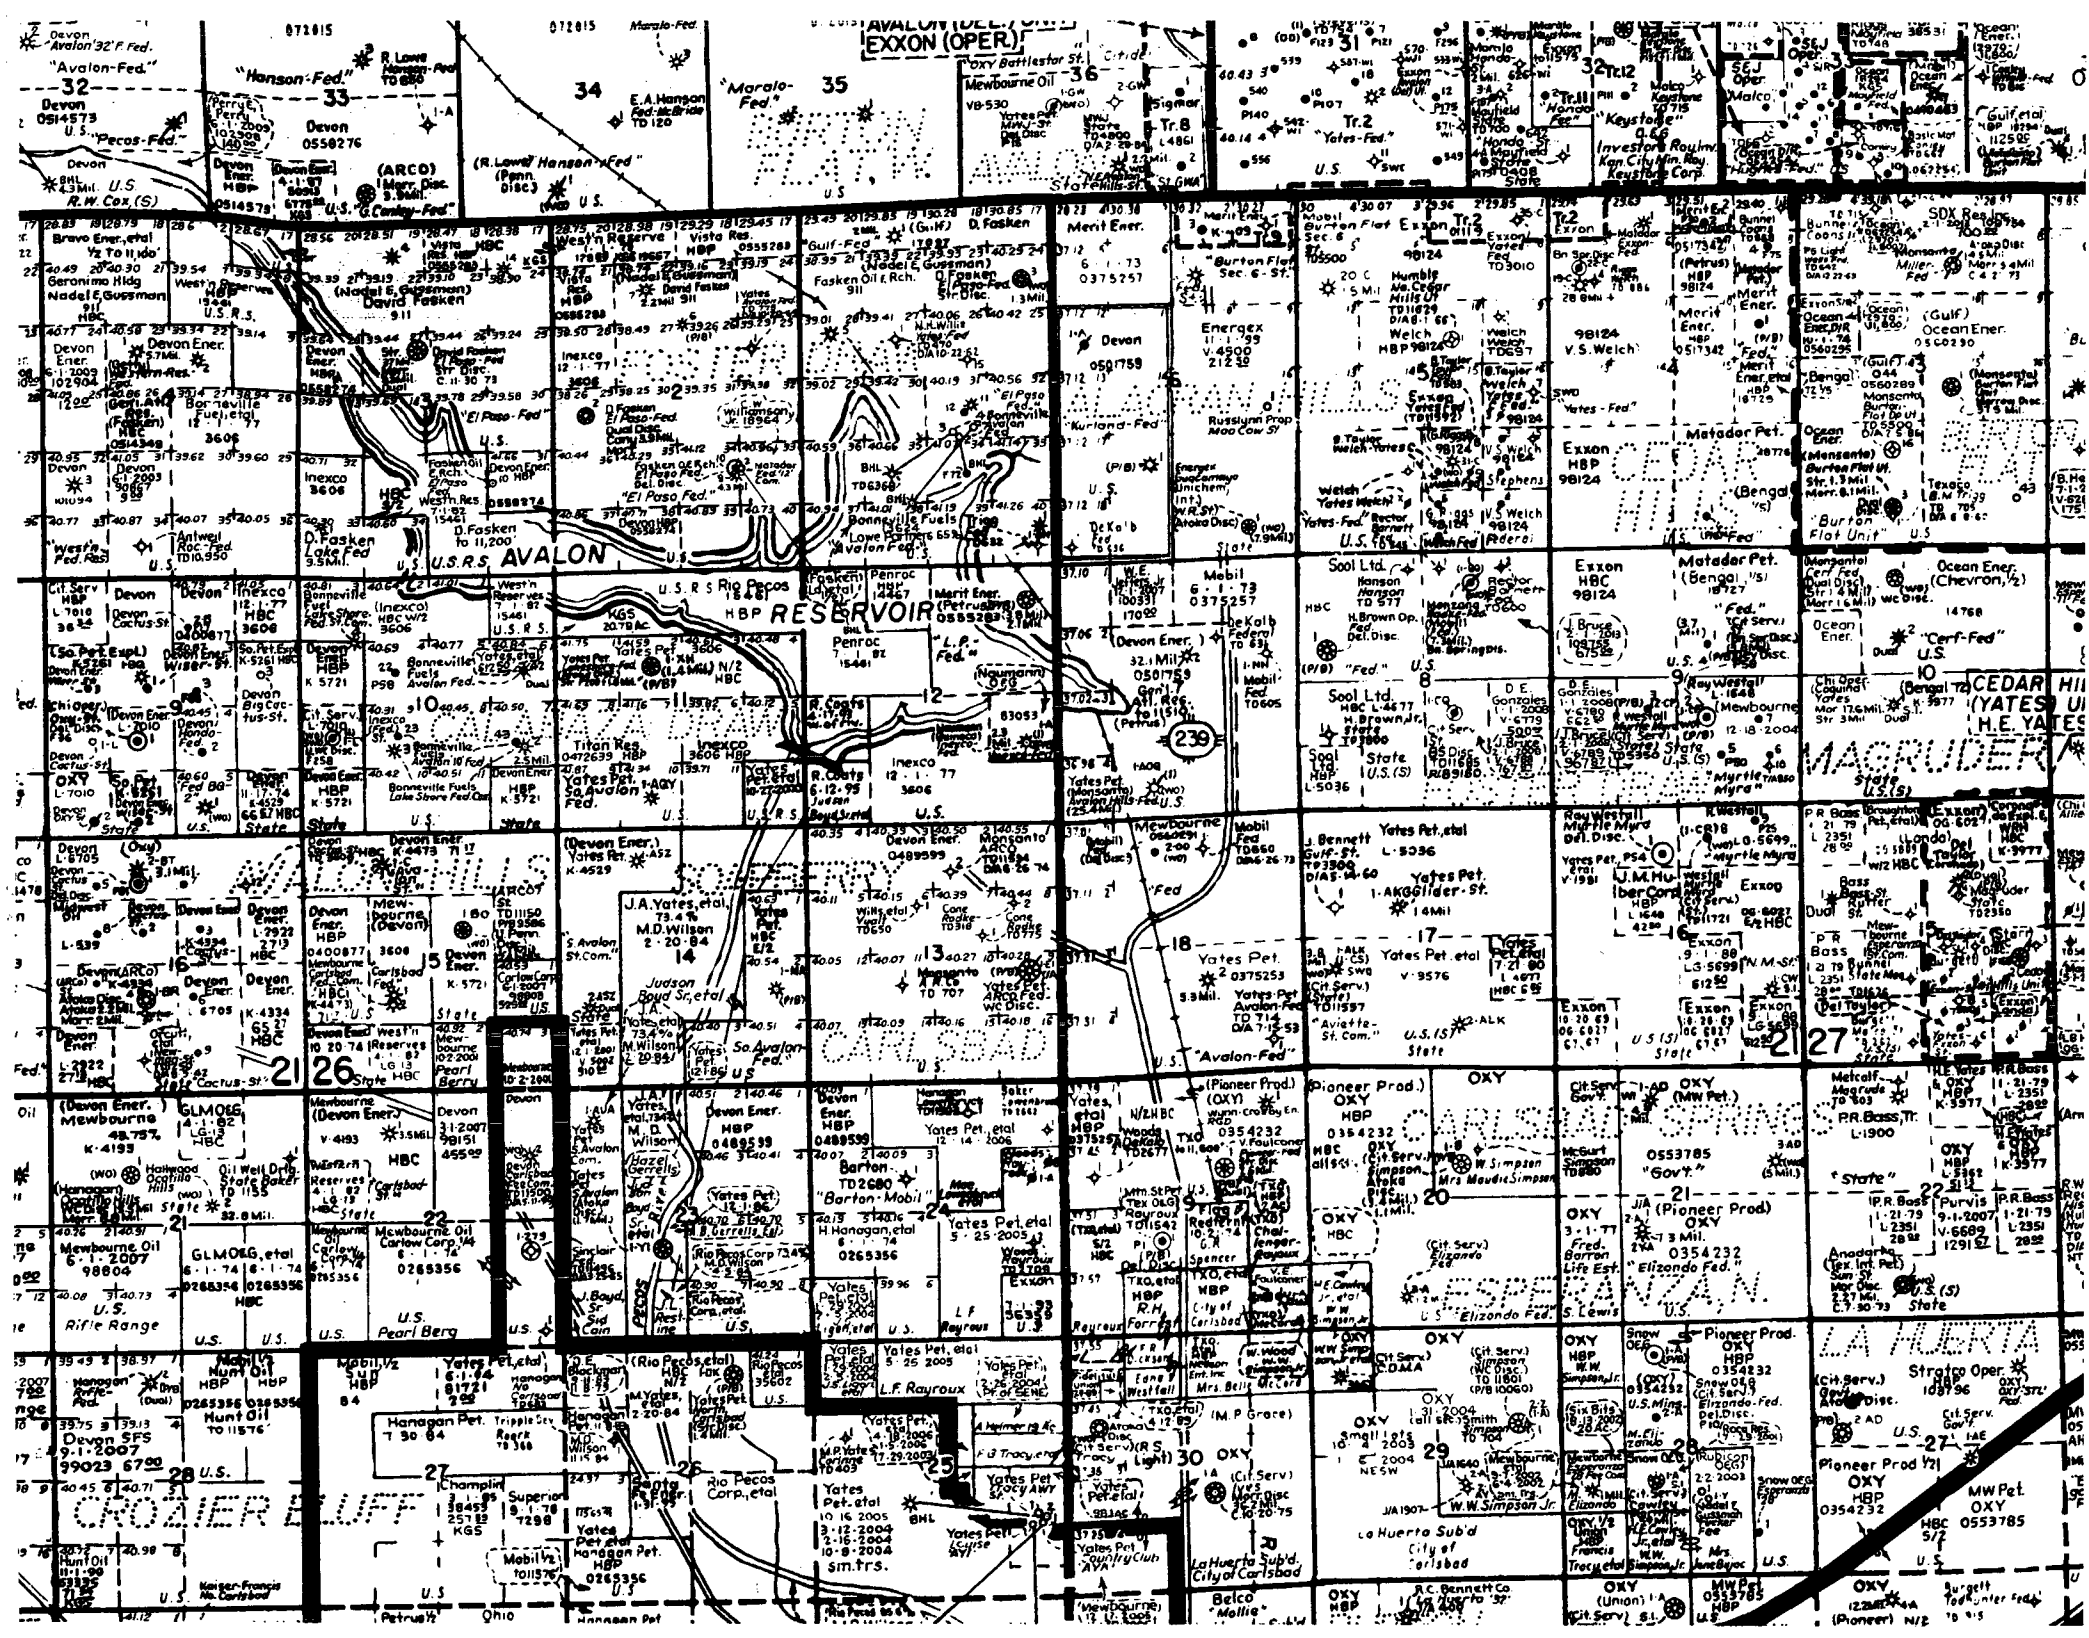

If there are any questions or if additional information is required feel free to call me at (405) 552-4633.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
