August 16, 1955

Oil Conservation Commission State of New Mexico Santa Fe, New Mexico

> Re: Application by The Superior-Oil Company to dually complete their State #1-175 well in the Eumont Oil & Gas Pay; and, also approval of a non-standard gas proration unit embracing 160 acres.

Gentlemen:

La Dil

Please consider this letter our application for commission approval of a dual gas-oil completion for The Superior Oil Company - State #1-175 well, located 66 0' FEL & 1980' FSL, Section 11, T-21-S, R-35-E, Lea County, New Mexico. Also please consider this as an application for approval of a non-standard gas proration unit embracing 160 acres being the SE/4; Section 12, T-21-S, R-35-E, Lea County, New Mexico.

NSP=

Attached hereto is a plat showing acreage to be dedicated, the well location, and offset ownership. Also attached is a diagramatic sketch of the proposed dual completion.

If approval of this application is obtained, applicant proposes to dually complete its State #1-175 well in the Basal Yates Gas Zone perforations $3780-90^{\circ}$ and the Upper Seven Rivers Oil Zone perforations $3854-70^{\circ}$ by setting a hookwall packer at approximately 3820° and using an Otis Type "F" nipple with a straight-thru choke just above the packer. The gas will flow up the annulus between $2\frac{1}{2}$ " EUE tubing and 7" casing, while the oil will flow up the tubing.

DC
