Re: Amerada Hess Corporation/application for simultaneous dedication
N½ §7-21S-36E/Amendment of Administrative Order NSP-378-A(L)(SD)

Ladies and gentlemen:

Attached is an application requesting approval of a third well in the above well unit. The N½ §7 is a previously approved non-standard well unit in the Eumont Gas Pool, with two existing wells in the NE¼ §7. The well unit and simultaneous dedication were approved before the pool rules for the Eumont Gas Pool were amended in 2001 (Order No. R-8170-P). Under Rule 3(C), one well per is allowed per 160 acres, and two wells are allowed on a 320 acre unit. An exception requires notice to offsetting operators.

Strictly speaking, the application violates Rule 3(C). However, it appears that existing non-standard units and well densities were grandfathered-in. As a result, this application has been filed **without notice to offsets** because it is the first well in the NW¼ §7. Please let us know if this interpretation is correct.

Applicant has a rig available to commence the work in the first week of December, and thus requests approval before the normal 20 day waiting period.

Please call if you have any questions.

Very truly yours,

James Bruce

Attorney for Amerada Hess Corporation

Amerada Hess Corporation
P.O. Box 52
Monument, New Mexico 88260

Attention: Robert L. Williams, Jr.

CORRECTED

Administrative Order NSP-378-A(L)(SD)

Dear Mr. Williams:

It was recently called to my attention that Division Administrative Order **NSL-378-A(SD)**, dated August 22, 1994, which authorized Amerada Hess Corporation to drill its H. L. Houston Gas Com Well No. 4 (API No. **30-025-32572**) at an unorthodox infill gas well location 1723 feet from the North line and 1310 feet from the East line (Unit H) of Section 7, Township 21 South, Range 36 East, NMPM, Lea County, New Mexico, within an existing non-standard 320-acre gas spacing and proration unit ("GPU") for the Eumont Gas Pool comprising the N/2 of said Section 7 (approved by Division Administrative Order NSP-378, dated July 27, 1957) that already had dedicated thereon the H. L. Houston Gas Com Well No. 3 (API No. **30-025-04541**), located at a standard gas well location 660 feet from the North line and 1980 feet from the East line (Unit B) of said Section 7, was assigned an incorrect "*Administrative Order No.*", or designation.

Therefore, said "*Division Administrative Order No. NSL-378-A(SD)*" shall be corrected to, "*Division Administrative Order No. NSP-378-A(L)(SD)*". All other provisions of said order shall remain in full force and effect until further notice.

Sincerely,

William J. LeMay
Director

Gentlemen:

Amerada Hess Corporation (AHC) respectfully requests your approval of this administrative application for Simultaneous Dedication.

AHC is planning to re-complete the HL Houston Gas Com #5, API No. 30-025-04553 (formerly Eunice Monument South Unit #291) in the Eumont Yates 7 Rivers Queen Pool. It is our desire to simultaneously dedicate the existing 320 acre Eumont Gas Proration Unit currently assigned to our HL Houston Gas Com #3 & #4 [Division Administrative Order NSP-378-A(L)(SD)] to all three wells. The 320-acre gas proration unit comprises the N/2 of Section 7, Township 21 South, Range 36 East, NMPM, Lea County, New Mexico. As the HL Houston Gas Com #3 & #4 are currently producing at a rate of 183 MCF/D, the proposed re-completion of EMSU #291 to HL Houston Gas Com #5 will essentially capture reserves which otherwise would not be produced from this GPU.

AHC respectfully requests your approval of this administrative application for simultaneous dedication. Attached is a location verification map and a Form C-102 plat.

If you have any questions or require any further information concerning this application, please contact me at (432) 758-6738.

Sincerely,

A handwritten signature in black ink that reads "Carol J. Moore". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.
