**Subject:** AP-65 Termination (ROC EME M-9 SWD Site)

**RE: Stage 1 Final Investigation Report and Request for Termination for the Rice Operating Company's  
EME M-9 SWD Site  
Unit Letter M, Section 9, T20S, R37E, NMPM, Lea County, New Mexico  
Abatement Plan (AP-65) Termination**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received Rice Operating Company's report and request to close the above-referenced site (dated July 24, 2009). The report is acceptable to the OCD. However, the material used to plug the groundwater monitoring wells must be a cement grout with 1% to 3% bentonite or other plugging material approved by the OCD. Please submit to the OCD a final plugging report within one year of receipt of this notice.

The above-referenced report, submitted in accordance with 19.15.30.19 NMAC [Section 19 of (Rule 30; formally, Rule 19)], indicates that Rice Operating Company has met the requirements of 19.15.30.9 NMAC; therefore, the OCD approves the report and hereby notifies you that the abatement plan (AP-65) is terminated in accordance with 19.15.30.19.B NMAC.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.
