3. Rule 26 (e) of the Blinebry Gas Field Rules permit two producing gas well within a single proration unit with the operator having the option to determine the proportion of the assigned allowable to be produced by any well.
4. There are no other wells producing from the Blinebry formation in this 120 acre non-standard proration unit.
5. The attached plat shows the proposed 120 acre unit outlined in red.
