RE: Form C-107A Quick Draw 10 G #1 Recompletion & Commingle

To Whom It May Concern:

• - • - • - •

Please find enclosed the following for the application to downhole commingle production from the Undesignated San Andres and North Seven Rivers Yeso zones in the referenced well:

Form C107A Attachments information Form C-102 for both zones Administrative Application Checklist

Mewbourne Oil Company would appreciate this commingle request being processed as soon as possible. If you need further information, please call me at (575) 390-4816.

Thank you,

Robin Terrell SR Production Engineer

MEWBOURNE OIL COMPANY Quick Draw "10" G #1 Unit Letter G, Sec 10 T20S R25E Undesignated San Andres and North Seven Rivers Yeso Eddy Co., NM

Attachments to C-107A

- 1. C102 for each zone to be commingled showing its spacing unit & acreage dedication.
- 2. Production curve for existing Yeso perfs showing current production. San Andres is estimated.

North Seven Rivers Yeso (Current production 20 MCF 15 BO, 15 BW) Undesignated Yeso (estimated 20 MCF, 15 BO, 15 BW)

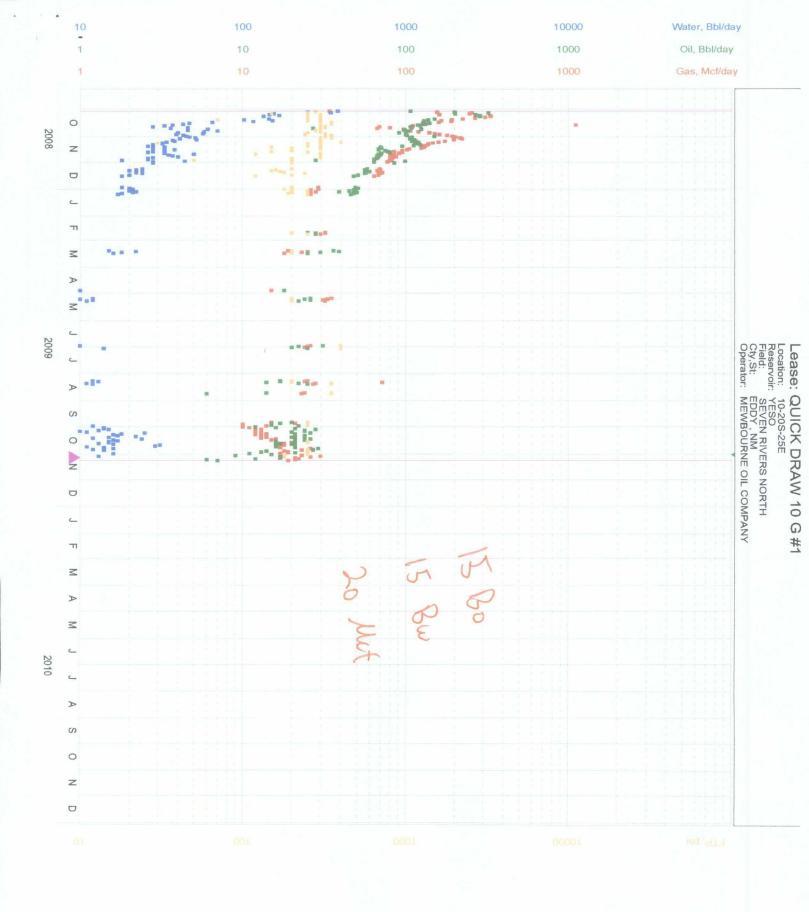

3. Notification list of working, royalty and overriding royalty interests for uncommon interest cases.

No uncommon interests.

•

4. Additional statements and data to support commingle.

Well is completed w/4 $\frac{1}{2}$ " csg thus making an isolated dual completion nearly impossible. Down hole commingling of the Yeso & San Andres will not reduce reserves from either pool & will enhance overall project economics.
