Subject: Soil Closure Approval (AP-009) - Plains HDO 90-23 Release Site

**RE: Soil Closure Request for the Plain Marketing's
HDO 90-23 Release Site (AP-009)
Unit Letter C of Section 6, T20S, R37E, NMPM, Lea County, New Mexico
Soil Closure Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report and request for soil closure of the above-referenced site (dated March 2010). The above-referenced report, submitted in partial fulfillment of 19.15.30.19 NMAC (Part 30.19, formally, Rule 19.K), indicates that Plains has partially met the requirements of 19.15.30.9 NMAC for this site. Therefore, the OCD hereby conditionally approves the Soil Closure Request for the HDO 90-23 Release Site and no further soil remediation is required for this site:

Plains must install a soil boring at least 40 feet bgs in June or July of **2011**. The soil boring must be located within 20 feet of MW-2. Soil samples at 5-foot intervals from the boring must be analyzed for TPH and the analytical results must be submitted to the OCD within 60 days of the installation.

Plains must install a soil boring at least 40 feet bgs in November or December of **2012**. The soil boring must be located within 20 feet of MW-2. Soil samples at 5-foot intervals from the boring must be analyzed for TPH and the analytical results must be submitted to the OCD within 60 days of the installation.

The Plains HDO 90-23 Release Site is still active under Abatement Plan, AP-009, and groundwater monitoring, further groundwater contamination delineation if warranted, and groundwater remediation must continue at the Plains HDO 90-23 Release Site.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

Subject: Anticipated Actions Approval (AP-009) - Plains HDO 90-23 Release Site

**RE: Annual Monitoring Report (2009) for the Plains Marketing's
HDO 90-23 Release Site (AP-009)
Unit Letter C of Section 6, T20S, R37E, NMPM, Lea County, New Mexico
Anticipated Actions Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Anticipated Actions") the above-referenced site (dated March 2010). The above-referenced report, submitted in partial fulfillment of 19.15.30.19 NMAC (Part 30.19, formally, Rule 19.K), indicates that Plains has partially met the requirements of 19.15.30.9 NMAC for this site. Therefore, the OCD hereby conditionally approves the Anticipated Actions for the HDO 90-23 Release Site:

Plains must perform NAPL removal at least **weekly**.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

Subject: RE: Soil Investigation Report Submittal Extension Approval (AP-009) (Plains HDO-90-23 Release Site)

**RE: Soil Investigation Report Submittal Extension Approval
for the Plains Marketing, L.P.
HDO-90-23 Release Site (AP-009)
Unit Letter C, Section 6, T20S, R37E, NMPM, Lea County, New Mexico**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has reviewed your request for extension of the submittal of the Soil Investigation Report and Work Plan for Soil Remediation (if required) for the above-referenced site (AP-009). The OCD hereby approves the request for extension of the submittal until Tuesday, March 30, 2010.

Also, please be advised that OCD approval of this extension does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Subject: RE: Soil Investigation Report Submittal Extension Approval (AP-009) (Plains HDO-90-23 Release Site)

Ed,

Plains respectfully requests an additional extension for the submittal of the Soil Investigation Report for this site. Nova has completed a draft version of the report and submitted it to Plains and once an internal review has been completed, the report will be submitted to the NMOCD. Plains anticipates being able to submit the report no later than March 30, 2010.

Please contact me if you have any questions or need additional information.

Thank you for your time.

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has reviewed your request for extension of the submittal of the Soil Investigation Report and Work Plan for Soil Remediation (if required) for the above-referenced site (AP-009). The OCD hereby approves the request for extension of the submittal until Monday, February 22, 2010.

Also, please be advised that OCD approval of this extension does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Subject: RE: Soil Investigation Work Plan Approval (AP-009) (Plains HDO-90-23 Release Site)

Ed,

Plains respectfully requests an extension of 45 days to submit the Soil Investigation Report for this site. Plains and Nova personnel are scheduled to meet later this month to review the analytical data for the soil samples collected at the site during November 2009. Once the data has been evaluated and a suitable course of action determined, Plains will submit a report that documents the findings of the November 2009 soil investigation and outlines a proposed soil closure strategy.

Please contact me if you have any questions or need additional information.

Thank you,
Jason Henry
